

TISCO Financial Group Public Company Limited
and its subsidiary companies
Report and consolidated financial statements
31 December 2019

Independent Auditor's Report

To the Shareholders of TISCO Financial Group Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of TISCO Financial Group Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2019, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of TISCO Financial Group Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TISCO Financial Group Public Company Limited and its subsidiaries and of TISCO Financial Group Public Company Limited as at 31 December 2019, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond to each matter are described below.

Allowance for doubtful accounts for loans to customers

As discussed in Notes 1.6.9 and 3.6 to the financial statements, as at 31 December 2019, the Group had loans to customers of Baht 242,826 million (accounting for 81% of total assets) and allowance for doubtful accounts of Baht 10,709 million, which is a material amount.

The estimation of allowance for doubtful accounts was made based on the criteria established by the Bank of Thailand and adjusted to incorporate the additional amounts that are expected not to be collectible, which relies on various estimation assumptions. Management is required to exercise considerable judgement in determining the assumptions to be used in estimating the losses expected to be incurred as a result of debtors being unable to repay principal and interest. Therefore, I have focused on examining the adequacy of the allowance for doubtful accounts for loans to customers.

I have performed audit procedures on the allowance for doubtful accounts by gaining an understanding of the estimation process and the Group's recording of allowance for doubtful accounts, assessing and testing the internal controls relevant to the recording of allowance for doubtful accounts, the collection of debts and the calculation of allowance for doubtful accounts for loans to customers, including the loan classification process and the collateral valuation, by making enquiry of responsible executives and selecting representative samples to test the operation of the designed controls. I checked the accuracy of the data used in the calculation of allowance for doubtful accounts to its source. I performed analytical procedures to compare the assumptions that the Group used to calculate allowance for doubtful accounts with historical data, the regularity in applying the assumptions, and evaluated the methods that the Group elected to use in estimating allowance for doubtful accounts for each type of product. I reviewed the completeness of loan's information and tested the accuracy of loan classification as at the end of reporting period.

In addition, I assessed the allowance for doubtful accounts calculated by the management by randomly selecting sample of customers to test the correctness of status of the loans, the loan classification and the existence of collateral, testing the calculation of the valuation of collateral and also testing whether the calculation of the allowance for doubtful accounts was in accordance with the Group's guidelines in cases where the Group sets loan loss provisions on a specific basis and by testing the calculation of the probability of default and loss given default as well as the allowance calculation in cases where the Group applies a collective approach to loan loss provisioning.

Interest income recognition

The Group's interest income recognition policy is as discussed in Note 1.6.1 to the financial statements. The Group's major source of revenue is interest income from loans, which amounted to Baht 17,073 million in the year 2019, accounting for 69% of total revenues. I focused my audit on recognition of interest income because there are a large number of customers such as retail loans, corporate loans and commercial lending loans. There are various types of credit, and there are a variety of conditions in the agreements, with the conditions for interest income recognition differing for each type of agreement. In addition, the Group's recognition of interest income is primarily dependent on data processing by IT system. I therefore focused my audit to determine whether the interest income was recognised in the correct amounts.

I performed my audit by gaining an understanding of, assessing and testing at random the design and the operation of both the IT system controls and internal controls related to loan origination, collection, recognition of interest income and the cessation of the recognition of interest income. I also selected samples of loan agreements to evaluate whether lending, cash receipt and income transactions were recorded in accordance with the conditions in the loan agreement and in compliance with the Group's interest income recognition policy. In addition, I performed analytical procedures on interest income data and, on a sampling basis, examined significant adjustments made through journal vouchers.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

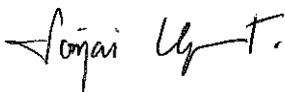

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

The accompanying notes are an integral part of the financial statements.

TISCO Financial Group Public Company Limited and its subsidiaries

Notes to consolidated financial statements

For the year ended 31 December 2019

1. Basis of preparation and presentation of financial statements and significant accounting policies

1.1 Basis of preparation of financial statements

The financial statements for the year ended 31 December 2019 have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Profession Act B.E. 2547 and the regulation of the Bank of Thailand (“BOT”), and their presentation has been made in compliance with the Bank of Thailand’s Notification No. Sor Nor Sor. 21/2558 regarding “Preparation and Announcement of Financial Statements of Commercial Banks and Parent Companies of Financial Holding Groups”, dated 4 December 2015.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

1.2 Basis of consolidation

- a) The consolidated financial statements of TISCO Group include the financial statements of TISCO Financial Group Public Company Limited (“the Company”) and its subsidiary companies (“the subsidiaries”) as mentioned in Note 3.1 to the financial statements.
- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, from the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared for the same reporting period and using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Company and its subsidiaries have been eliminated from the consolidated financial statements.

- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

1.3 Separate financial statements

The separate financial statements present investments in subsidiaries and joint venture under the cost method.

1.4 New financial reporting standards

a) Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised (revised 2018) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2019. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below:

TFRS 15 Revenue from Contracts with Customers

TFRS 15 supersedes the following accounting standards together with related interpretations.

TAS 11 (revised 2017)	Construction Contracts
TAS 18 (revised 2017)	Revenue
TSIC 31 (revised 2017)	Revenue - Barter Transactions Involving Advertising Services
TFRIC 13 (revised 2017)	Customer Loyalty Programmes
TFRIC 15 (revised 2017)	Agreements for the Construction of Real Estate
TFRIC 18 (revised 2017)	Transfers of Assets from Customers

Entities are to apply this standard to all contracts with customers unless those contracts fall within the scope of other standards. The standard establishes a five-step model to account for revenue arising from contracts with customers, with revenue being recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model.

This standard does not have any significant impact on the Group's financial statements.

b) Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2020

The Federation of Accounting Professions issued a number of new and revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards except the following new standards which involve changes to key principles, which are summarised below.

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard:

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

Financial Reporting Standard Interpretations:

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

The management of the Group expects the effect of the adoption of these accounting standards to the statements of financial position as at 1 January 2020 to be to increase the Group's assets by approximately Baht 444 million and the Group's equity by approximately Baht 444 million, with most of the impacts resulting from the following adjustments.

- Classification and measurement of investments in equity instruments of non-listed companies - The Group is to measure investments in equity instruments of non-listed companies at fair value and to classify the investments as financial assets at fair value through profit or loss.
- Classification and measurement of investments in available-for-sale equity securities - The Group's available-for-sale investments in listed equity securities are measured at fair value through other comprehensive income. The Group has decided to classify these investments as financial assets at fair value through profit or loss. The cumulative gain (or loss) on changes in the value of reclassified available-for-sale investments that were previously presented in other comprehensive income is to be reclassified to retained earnings.

Moreover, the Group is to recognise an allowance for expected credit losses on its financial assets, in which the management of the Group expects that there will be a remaining excess loan loss reserve which will be gradually released under the straight-line method for 5 years according to the Bank of Thailand's guideline.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

The management of the Group expects the effect of the adoption of this accounting standard to the statements of financial position as at 1 January 2020 to be to increase the Group's assets by approximately Baht 1,287 million (The Company only: approximately Baht 1 million) and the Group's liabilities by approximately Baht 1,287 million (The Company only: approximately Baht 1 million).

1.5 Change in accounting estimation

Change in accounting estimation and recording of depreciation of revalued assets

At the end of 2018, the Company and its subsidiaries reappraised office condominiums and at the same time had the useful lives of the office condominiums estimated by an independent professional appraiser. As a result, effective from 1 January 2019, the Company and its subsidiaries have changed the remaining useful lives of office condominiums from 15 years to 30 years in order to align them with the estimated useful lives of the assets determined using a prospective method.

The amounts affecting the statements of comprehensive income are summarised below.

	Consolidated financial statements		Separate financial statements	
	Increase (decrease) in profit after tax (Thousand Baht)	Increase (decrease) in basic earnings per share (Baht per share)	Increase (decrease) in profit after tax (Thousand Baht)	Increase (decrease) in basic earnings per share (Baht per share)
For the year 2019	15,584	0.02	3,577	0.01
For the year 2020	15,584	0.02	3,577	0.01
For the year 2021	15,584	0.02	3,577	0.01
For the year 2022	15,584	0.02	3,577	0.01
For the year 2023 - 2048	(62,337)	(0.08)	(14,307)	(0.02)

1.6 Significant accounting policies

1.6.1 Income recognition

a) Interest and discounts on loans

Interest on loans is recognised as income on an accrual basis and is based on principal outstanding. Hire purchase, finance lease and loan against auto license income are recognised over the installment period, using the effective interest rate.

The subsidiaries have policies for corporate loans on which interest payments have been defaulted for more than one month, it is the policy of its subsidiaries to cease accruing income. For other loan accounts which are overdue for more than three months, the recognition of interest income is ceased, already recorded accrued interest is reversed from accounts and after that interest will be recognised as income on a cash basis.

Accrual of interest is ceased for margin loans on which interest is overdue for more than two months and interest is then recognised on a cash basis.

The accounts will be reinstated to an accrual basis when the overdue amounts are received.

- b) Interest and dividends on investment in securities
Interest on investment in securities is recognised as income on an accrual basis. Dividends on investment in securities are recognised as income when the right to receive the dividends is established.
- c) Brokerage fees
Brokerage fees on securities and derivatives trading are recognised as income on the transaction dates.
- d) Gains (losses) on trading in securities and derivatives
Gains (losses) on trading in securities and derivatives are recognised as income/expenses on the transaction dates.
- e) Fee and service income
Fee and service income are recognised as income on an accrual basis.
- f) Incentive fee income on fund management
The subsidiary operating an asset management business recognises incentive fee income, which arises when the annual returns of funds that the company is managing exceeds the threshold for the performance of the fund, as revenue at year-end when there is a high likelihood that the income will occur.

1.6.2 Expense recognition

- a) Interest expenses
Interest expenses are charged to expenses on an accrual basis.
- b) Commissions and direct expenses of the hire purchase business/loan against auto license.
The subsidiaries record the initial commissions and direct expenses arising in respect of hire purchase/loan against auto license contracts using the effective interest rate method, and deduct them from interest income over the installment period.
Deferred revenue is stated net of commissions and direct expenses incurred at the initiation of the hire purchase contract.

1.6.3 Securities purchased under resale agreements according to private repurchase transactions

The subsidiary company operating a banking business has purchased securities under resale agreements according to private repurchase transactions, which stipulate definite dates, terms and prices. Amounts paid for the securities purchased under resale agreements are presented under the caption of “Interbank and money market items - net” in the statements of financial position and the securities purchased are used as collateral.

Under securities purchased under resale agreements according to private repurchase transactions, the subsidiary obtains securities under resale agreements as collateral securities on terms which permit it to repledge or resell the securities to others.

1.6.4 Investments

- a) Investments in trading securities are stated at fair value. Changes in the fair value of these securities are recorded in profit or loss.
- b) Investments in available-for-sale securities are stated at fair value. Changes in the fair value of these securities are recorded in other comprehensive income, and will be recognised as part of profit or loss when the securities are sold.
- c) Investments in held-to-maturity debt securities are recorded at amortised cost less allowance for impairment loss (if any). The premium/discount on debt securities is amortised/accreted by the effective rate method with the amortised/accreted amount presented as an adjustment to the interest income.
- d) Investments in non-marketable equity securities, which are classified as general investments, are stated at cost net of allowance for impairment loss (if any).
- e) Investments in subsidiaries and joint venture are accounted for in the separate financial statements using the cost method net of allowance for impairment loss (if any). Investment in joint venture is accounted for in the consolidated financial statements using the equity method.
- f) The subsidiary company does not record investments which the subsidiary company holds not less than 20% of the equity in associated companies under the equity method in the consolidated financial statements, if the investment was transferred as a result of debt restructuring. The subsidiary company is obliged to dispose of these investments within the period stipulated in the Bank of Thailand’s regulations.

- g) The fair value of marketable securities is based on the latest bid price of the last working day of the year as quoted on the Stock Exchange of Thailand. The fair value of government bonds, state enterprise securities and private debt securities is determined by using the formula quoted by the Bank of Thailand, which is based on the yield rates quoted by the Thai Bond Market Association or other financial institutions. The fair value of unit trusts is determined based on their net asset value.
- h) Losses on impairment (if any) of the investments in available-for-sale securities, held-to-maturity debt securities and general investments are recognised in profit or loss.
- i) The weighted average method is used for computation of the cost of investments.
- j) In the event the Company and its subsidiaries reclassify investments from one type to another, such investments will be readjusted to their fair value as at the reclassification date. The differences between the carrying amount of the investments and the fair value on the date of reclassification are recorded in profit or loss or recorded as other components of equity, depending on the type of investment that is reclassified.
- k) Purchases and sales of investments are recorded on the settlement date.

1.6.5 Investments in receivable purchased or transferred in

Investments in receivable purchased or transferred in, which are classified as held-to-maturity securities, are valued at acquisition cost net of allowance for impairment (if any). Losses on impairment of investments are recorded in profit or loss.

If the receivable enters into a troubled debt restructuring process, the investment will be transferred to loans to customers and presented at fair value, net of allowance for doubtful debts. The fair value is based on the outstanding balance of the receivable as at the transfer date or the date of restructuring. Allowance for doubtful debts is based on the same Bank of Thailand's guideline as allowance for loans to customers.

Investments in receivable purchased or transferred in are recorded as loans to customers in the statement of financial position at the fair value of consideration given in exchange, plus direct costs. Subsequent to initial recognition, these investments in receivable are valued at balances on the same basis as loans to customers.

1.6.6 Receivable from Clearing House/Payable to Clearing House

Receivable from Clearing House comprises the net balance receivable from Thailand Securities Depository (TSD) in respect of securities trades settled through the Clearing House of TSD, and the net balance receivable from Thailand Clearing House (TCH), including amounts pledged with TCH as security for derivatives trading.

Payable to Clearing House comprises the net balance payable to Thailand Securities Depository in relation to securities trading settlements made through the Clearing House of TSD, and the net derivatives balance payable to Thailand Clearing House.

1.6.7 Loans to customers

Loans to customers are stated at the principal balances, excluding accrued interest receivables. Unrecognised deferred revenue/discounts on loans to customers are deducted from loans to customers.

Hire purchase and finance lease receivables are stated at outstanding balance, net of deferred revenue. Deferred revenue is stated net of commissions and direct expenses incurred at the initiation of hire purchase contracts and advances received from finance lease receivables.

1.6.8 Securities and derivatives business receivables

Securities and derivatives business receivables comprise the net balance of securities business receivables and derivatives business receivables, after deducting allowance for doubtful accounts. Securities business receivables comprise the net receivable balances of cash accounts, securities borrowing and lending receivables, and other receivables such as securities receivables that are subject to legal proceeding, undergoing restructuring or setting in installments.

1.6.9 Allowance for doubtful accounts and loss on debt restructuring

- a) The subsidiary company operating a banking business provides allowance for doubtful accounts and loss on debt restructuring in accordance with the Notifications of the Bank of Thailand (“BOT”) and adjusts these by the additional amount which is expected not to be collectible based on an evaluation of the current status of the debtors, taking into consideration the recovery risk and the value of collateral.

For all loans to customers classified as pass and special mention, except for hire purchase receivables and loan against auto license receivables that are classified as pass and special mention, the subsidiary company records provision at a rate of not less than 1% and not less than 2% of the debt balance net of collateral value excluding accrued interest receivables, respectively.

For non-performing loans to customers which are classified as sub-standard, doubtful and doubtful of loss, except for non-performing hire purchase receivables and loan against auto license receivables, the subsidiary company records allowance for doubtful accounts at a rate 100% of the debt balance remaining after deducting the present value of expected future cash inflows from debt collection or from collateral disposal, with the discount interest rate and the period of collateral disposal being set with reference to BOT's Notifications.

For hire purchase receivables and loan against auto license receivables that are classified as pass, special mention and non-performing loans, the subsidiary company uses a collective approach, based on historical loss and behavioral grading of the hire purchase receivables and loan against auto license receivables.

The subsidiary company has already set provision for all loans to customers in accordance with the BOT's Notifications issued on 10 June 2016.

- b) For the securities business of a subsidiary, an allowance for doubtful accounts is based on a review of debtors' ability to make repayment, taking into consideration of recovery risk and the value of the collateral. An allowance is set aside for doubtful debts that their collaterals are not fully covered and/or those which may not be fully recovered. Such debt classifications and provisions are made in accordance with the Notification of the Office of the Securities and Exchange Commission and consideration of other relevant factors.
- c) For the subsidiary companies operating a hire purchase business, allowance for doubtful accounts is set aside using a collective approach, based on historical loss and behavioral grading of the hire purchase receivables.
- d) Subsidiary companies operating other lending business set aside allowance for doubtful accounts for loans to customers classified as pass and special mention at a rate of not less than 1% and not less than 2% of the debt balance net of collateral value excluding accrued interest receivables, respectively. For non-performing loans to customers which are classified as sub-standard, doubtful and doubtful of loss, the subsidiary companies record allowance for doubtful accounts at a rate 100% of the debt balance net of collateral value.

- e) Allowance for doubtful accounts for other receivables is provided for the estimated losses that may be incurred in the collection of receivables and based on the review of current status of receivables outstanding at the end of reporting period.
- f) Increase (decrease) in allowance for doubtful accounts is recorded as expense during the year. Amounts written off as bad debts are deducted from the allowance for doubtful accounts. Bad debt recovery amounts are credited to the provision for doubtful accounts in the period of recovery.

1.6.10 Troubled debt restructuring

The subsidiary company operating a banking business records troubled debt restructuring transactions in accordance with the Bank of Thailand's regulations and Thai Accounting Standard regarding "Accounting for Troubled Debts Restructuring". The subsidiary records the assets or equities transferred to the subsidiary for debt settlement at the fair values of the assets less estimated selling expenses (if any), providing that this does not exceed the legally claimable amount of outstanding debt. In case where the debt restructuring involves modifications of terms of receivables, the fair value of receivables after restructuring represents the net present value of the expected future cash inflows, discounted using the cost of fund rates prevailing at the restructuring date. In case where the cost of fund rates are lower than the interest rates specified in the term of modifications, the subsidiary will use the interest rates specified in the term of modifications as the discount rates. The subsidiary records differences between the fair value of receivables and the balance of net book value of receivables as of restructuring date as expenses in profit or loss. Losses arising from restructuring by waiver of part of principal or recorded accrued interest receivable, less recorded allowance, are recognised in profit or loss when incurred.

1.6.11 Recognition and derecognition of customer deposits

Cash which customers have placed with a subsidiary company operating a securities business in cash accounts for securities trading and derivatives trading is recorded as an asset of the subsidiary company for the customers' position for internal control purposes. At the financial statement date, the subsidiary company writes the amounts which are unsecured off from both assets and liabilities and presents only those assets which belong to the subsidiary company.

1.6.12 Borrowing and lending of securities

The subsidiary company operating a securities business is engaged in securities borrowing and lending transactions through agreements made with borrowers and lenders of securities, which are the subsidiary company's customers.

The subsidiary company records its obligations to return borrowed securities which it has lent as "Securities borrowing payables" and securities lent to customers are recorded as "Securities borrowing receivables" in the statement of financial position. At the end of the year, the balances of securities borrowing payables and securities borrowing receivables are adjusted based on the latest offer price quoted on the Stock Exchange of Thailand on the last working day of the year. Gains or losses arising from such adjustments are included in part of profit or loss in the statement of comprehensive income. The subsidiary company records cash paid or received as collateral for securities borrowing and lending as "Guarantee deposit receivables" or "Guarantee deposit payables". Fees from borrowing and lending are recognised on an accrual basis over the term of the lending.

1.6.13 Properties foreclosed

Properties foreclosed represents assets transferred in respect of receivables on which the debtors have defaulted or restructured receivables. The values of the repossessed assets are stated at the lower of cost (fair value of assets at the transfer date, not exceeding the legally claimable amount of outstanding debt) or net realisable value. Net realisable value is determined at the market value or the appraisal value of repossessed assets less estimated selling expenses. The subsidiary company operating a banking business is required to record the additional general reserve for declining in value of properties foreclosed in accordance with the notifications of the Bank of Thailand and the management's estimates.

The subsidiary companies recognise loss on impairment in profit or loss. Gains or losses from disposal of properties foreclosed are recognised upon disposal.

1.6.14 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Any gains or losses arising from changes in the value of investment properties are recognised in profit or loss when incurred.

On disposal of investment properties, the difference between the net disposal proceed and the carrying amount of the asset is recognised in profit or loss in the year when the asset is derecognised (if any).

1.6.15 Premises and equipment/Depreciation

Land is stated at cost. Office condominiums and equipment are stated at cost or revalued amount less accumulated depreciation and allowance for loss on impairment of assets (if any).

Office condominiums are initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to their fair values. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Differences arising from the revaluation are dealt with in the financial statements as follows:

- When an asset's carrying amount is increased as a result of the revaluation of the Company's and its subsidiaries' assets, the increase is credited directly to other comprehensive income and the cumulative increase is recognised in equity under the heading of "Surplus on revaluation of assets". However, the revaluation increase is recognised as income to the extent that it reverses the revaluation decrease in respect of the same asset previously recognised as an expenses.
- When an asset's carrying amount is decreased as a result of the revaluation of the Company's and its subsidiaries' assets, the decrease is recognised in profit or loss. However, the revaluation decrease is charged to other comprehensive income to the extent that it does not exceed the amount already held in "Surplus on revaluation of assets" in respect of the same asset.

The surplus on revaluation of assets is amortised to retained earnings on a straight-line basis over the remaining life of the related assets. The revaluation surplus which is transferred to retained earnings is the difference between the depreciation calculated on book value of the revalued assets and the depreciation calculated on original cost of the assets. The revaluation surplus can neither be offset against deficit nor used for dividend payment.

Depreciation of office condominiums and equipment is calculated by reference to their costs or fair values on the straight-line basis (except for the depreciation of communications equipment, which is calculated using the sum-of-the-year-digits method over estimated useful lives of 3 years) over the following estimated useful lives:

Buildings and office condominiums	-	18 - 50	years
Office improvements	-	5, 20	years
Furniture, fixtures and equipment	-	5	years
Motor vehicles	-	5, 6	years

The depreciation is dealt with in the financial statements as follows:

- Depreciation attributed to the original cost portion is included in determining income.
- Depreciation attributed to the surplus portion is included in determining income.

No depreciation is provided on land and assets under installation.

An item of premises and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

1.6.16 Intangible assets

The Company and its subsidiaries initially recognise intangible assets at cost. Following the initial recognition, the intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

The Company and its subsidiaries amortise intangible assets with finite lives on a systematic basis over the economic useful life and test for impairment whenever there is an indication that the intangible assets may be impaired. The Company and its subsidiaries review the amortisation year and the amortisation method of such intangible assets at least at each financial year end. The amortisation expense is charged to profit or loss.

Intangible assets with finite lives are software license fees that the Company and its subsidiaries amortise over the following estimated useful lives:

The license agreements with specified number of years of usage	-	according to the year of license agreement by the straight-line basis
The license agreements with no specified number of years of usage	-	5 years by the straight-line basis
No license agreements	-	5 years by the straight-line basis

1.6.17 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred tax assets/liabilities are recognised for temporary differences between the tax bases of assets and liabilities and their carrying amounts as at the end of reporting period. These will be realised in future years when the income is realised, or the expenses provided for are actually incurred and considered deductible for income tax purposes.

The Company and its subsidiaries recognise deferred tax assets for all deductible temporary differences to the extent that it is probable that the Company and its subsidiaries will generate future taxable profits that will be available against which such deductible deferred tax assets can be utilised. The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences.

The Company and its subsidiaries record deferred tax directly to equity if the tax relates to items that are recorded directly to equity.

At the end of each reporting period, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilised.

1.6.18 Impairment of assets

The Company and its subsidiaries assess at the end of each reporting period whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company and its subsidiaries estimate the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

An impairment loss is recognised in profit or loss. However, in cases where assets was previously revalued and the revaluation was taken to equity, a part of such impairment is recognised in equity up to the amount of the previous revaluation.

1.6.19 Derecognition of financial assets and financial liabilities

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or when the Company and its subsidiaries have transferred substantially all risks and rewards of ownership. If the Company and its subsidiaries neither transfer nor retain substantially all risks and rewards of ownership of such financial assets, and retain control of such financial assets, the Company and its subsidiaries continue to recognise the financial assets to the extent of its continuing involvement. Financial liabilities are derecognised when they are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired.

1.6.20 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items included in the consolidated financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling on the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the reference rates announced by the Bank of Thailand at the end of each reporting period.

Gains and losses on exchange are included in determining income.

1.6.21 Employee benefits

Short-term employee benefits

The Company and its subsidiaries record salaries, wages, bonuses and contributions to the social security fund as expenses when incurred.

Part of bonus expenses of the Company and its subsidiaries is annual bonus, which is remuneration for employees' annual performance that is paid in cash, and determined with reference to the Company's share price. The Company and its subsidiaries record these expenses and accrued bonus when employees receive the right as service is deemed to have already been rendered by the employees. It is recorded based on the average daily share price from the grant date to the end of each reporting period and any increase or decrease in the expenses according to changes in the share price is recognised in order to reflect the fair value of accrued bonus liability at the end of each reporting period, until the bonuses are settled.

Post-employment benefits and other long-term employee benefits

Defined contribution plans

The Company and its subsidiaries and their employees have jointly established a provident fund. The fund is monthly contributed by the employees and by the Company and its subsidiaries. The fund's assets are held in a separate trust fund and the Company's and its subsidiaries' contributions are recognised as expenses when incurred.

Defined benefit plans and other long-term employee benefits

The Company and its subsidiaries have obligations in respect of the severance payments they must make to employees upon retirement under labor law and other employee benefit plan. The Company and its subsidiaries treat these severance payment obligations as a defined benefit plan. In addition, the Company and its subsidiaries provide other long-term employee benefit plan, namely long service awards.

The obligation under the defined benefit plan is determined by the Company and its subsidiaries based on actuarial techniques.

Actuarial gains or losses arising from post-employment benefits are recognised immediately in other comprehensive income.

Actuarial gains or losses arising from other long-term benefits are recognised immediately in profit or loss.

1.6.22 Provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resource embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

1.6.23 Derivatives and hedge accounting

- a) The subsidiary operating a banking business records derivatives held for trading under fair value method. The subsidiary records gains (losses) from changes in fair value of derivatives in profit or loss. The fair value of derivatives is based on the market price, or a formula which is generally accepted in cases where there is no market price.
- b) The subsidiary operating a securities business recognises gains (losses) from changes in the fair value of the future contracts held for trading in profit or loss, with fair value determined based on the daily settlement prices quoted by Thailand Futures Exchange Public Company Limited.

1.6.24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation techniques that are appropriate in the circumstances and maximise the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categories of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities.

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly.

Level 3 - Use of unobservable inputs such as estimates of future cash flows.

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

1.6.25 Financial instruments

a) Financial risk management

The Company's and its subsidiaries' financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash, interbank and money market items (assets), derivatives assets, investments, securities and derivatives business receivables, receivable from clearing house, loans to customers and accrued interest receivables, deposits, interbank and money market items (liabilities), liabilities payable on demand, derivatives liabilities, debts issued and borrowings, securities and derivatives business payables and payable to clearing house. The financial risks associated with these financial instruments and how they are managed is described in Note 3.38 to the financial statements.

b) Fair value of financial instruments

In determining the fair value of financial instruments, the estimated fair value will be adjusted by reserve with respective risk. For financial instruments with duration of one year or less, the book value represents a reasonable estimate of fair value. For financial instruments with duration of greater than one year, fair value is determined based on the quoted market prices, where available, or otherwise based on present values of contractual cash flows, discounted using the rate used for financial instruments with similar features.

The methods and assumptions used by the Company and its subsidiaries in estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturities or carry interest at rates approximating the market rate, including cash, interbank and money market items (assets), securities and derivatives business receivables, receivable from clearing house, deposits, interbank and money market items (liabilities), liabilities payable on demand, securities and derivatives business payables and payable to clearing house, the carrying amounts in the statement of financial position approximate their fair value.
- For investments in debt securities, their fair value is generally derived from quoted market prices or determined by using the yield curve as announced by the Thai Bond Market Association.
- For investments in marketable equity securities, their fair value is generally derived from quoted market prices, or based on discounted future cash flows and/or comparing with similar companies when no market price is available.
- Loans to customers and accrued interest receivables, except for hire purchase receivables and other retail loans, are presented at fair value which is the book value less allowance for doubtful accounts, since most loans to customers carry interest at floating rates. Hire purchase receivables and other retail loans are presented at fair value, which is the present value of future cash inflows, discounted by the current interest rate for new loans.
- The fair value of debts issued and borrowings is estimated by discounting expected future cash outflows by the current market interest rates of the borrowings with similar terms and conditions.
- For derivatives, their fair value has been determined by using a discounted future cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as spot rates of foreign currencies, yield curves of the respective currencies and interest rate yield curves. The subsidiary has considered the counterparty's credit risk when determining the fair value of derivatives.

1.6.26 Offsetting financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.6.27 Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Recognition and derecognition of assets and liabilities

In considering whether to recognise or to derecognise assets and liabilities, the management is required to make judgement on whether significant risk and rewards of those assets or liabilities have been transferred, based on their best knowledge of the current events and arrangements.

Allowance for doubtful accounts for loans to customers

Allowance for doubtful accounts for loans to customers is intended to adjust the value of loans to customers for probable credit losses. The management uses judgement to establish reserves for estimated losses on outstanding loans when there is any doubt about the borrower's capacity to repay the principal and/or the interest. The allowances for loan losses are determined through a combination of specific reviews, consideration of the probability of defaults, statistical modeling and estimates, taking into account change in the value of collateral and current economic conditions, in compliance with the principles stipulated by the Bank of Thailand. However, the use of different estimates and assumptions could affect the amounts of allowances for loan losses and adjustments to the allowances may therefore be required in the future.

Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercises judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk of both the Company and its subsidiaries and the counterparty, liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

Impairment of investments in securities

The Company and its subsidiaries treat available-for-sale securities and general investments as impaired when the management judges that there has been a significant decline in the fair value below their cost or where other objective evidence of impairment exists. The determination of impairment requires judgement of the management.

Investment properties

The Company and its subsidiaries present investment properties at the fair value estimated by an internal appraiser of TISCO Bank, and recognise changes in the fair value in profit or loss. The independent appraiser valued the investment properties using the market approach. The key assumptions used in estimating the fair value are described in Note 3.10 to the financial statements.

Premises and equipment/Depreciation

In determining depreciation of premises and equipment, the management is required to make estimates of the useful lives and residual values of premises and equipment and to review estimated useful lives and residual values when there are any changes.

The Company and its subsidiaries measure office condominiums at revalued amounts. Such amounts are determined by the independent appraiser using the market approach. The valuation involves certain assumptions and estimates as described in Note 3.11 to the financial statements.

In addition, the management is required to review premises and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans and other long-term employee benefits

The obligation under the defined benefit plans and other long-term employee benefit plans is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate, and staff turnover rate.

Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgement regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Litigation

The Company and its subsidiaries have contingent liabilities as a result of litigation. The management has used judgement to assess of the results of the litigation and believes that no loss will result. Therefore, no contingent liabilities are recorded as at the end of the reporting period.

Consolidation and deconsolidation of subsidiaries

In preparation of the consolidated financial statements, the management is required to make judgement whether the Company has control over the subsidiaries that are included in the consolidated financial statements or not.

2. General information

2.1 The Company's information

TISCO Financial Group Public Company Limited (“the Company”) is a holding company and is the parent company of TISCO Group. Its registered address is 48/49 TISCO Tower, 21st Floor, North Sathorn Road, Silom, Bangrak, Bangkok.

2.2 Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside to a statutory reserve at least 5 percent of its net profit after deducting accumulated deficit brought forward (if any), until such reserve reaches 10 percent of its registered share capital. The statutory reserve is not available for dividend distribution. At present, the statutory reserve has fully been set aside.

2.3 Directors' remuneration

Directors' remuneration represents the benefits paid to the Company's and its subsidiaries' directors in accordance with Section 90 of the Public Limited Companies Act, exclusive of salaries, and related benefits payable to directors who hold executive positions.

2.4 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company. They also include associated companies and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

The Company has significant business transactions with related parties. These transactions have been concluded on commercial terms and bases agreed upon in the ordinary course of business between the Company and those related parties, which are in reference to the terms and price as charged to other customers.

3. Supplemental information

3.1 Consolidated financial statements

A list of subsidiaries included in the consolidated financial statements as at 31 December 2019 and 2018 is provided below.

(Unit: Percent)

Company's name	Nature of business	Country of incorporation	Percentage of shares held by the Company as at 31 December	
			2019	2018
<u>Subsidiaries directly held by the Company</u>				
TISCO Bank Public Company Limited	Banking	Thailand	99.99	99.99

Total	239,272	194,285	10,074	237,209	198,784	11,043

⁽¹⁾ Allowance for doubtful accounts for loans to customers is determined based on debt balance less collateral value in accordance with the BOT's guidelines (except for hire purchase and finance lease receivables, for which TISCO Bank does not deduct the collateral value from the outstanding loan balance).

⁽²⁾ As at 31 December 2019, the provisions set aside by TISCO Bank exceeded the BOT's notification No. Sor Nor Sor. 5/2559 minimum requirement by a total of Baht 5,714 million (As at 31 December 2018: total of Baht 6,428 million). TISCO Bank allocated Baht 2,151 million of the excess provision to specific provision for individual debtors (As at 31 December 2018: total of Baht 3,477 million) and so combined with the minimum provision requirement of Baht 4,360 million (As at 31 December 2018: total of Baht 4,615 million), the total provision set aside in accordance with BOT's requirements is Baht 6,511 million (As at 31 December 2018: total of Baht 8,092 million).

Percentage of allowance for doubtful accounts set up (%)

	Percentage of allowance for doubtful accounts set up (%)

Doubtful of loss	26.21	27.67	39.13	37.75	100	100

⁽¹⁾ These percentages of allowance for doubtful accounts are average percentages used in setting up allowance for doubtful accounts, after inclusion of the allowance for doubtful accounts from assigning provision in excess of BOT's minimum requirement to specific provision for individual debtors.

⁽²⁾ These percentages are the rates used to set aside allowance for doubtful accounts in accordance with the BOT's minimum requirement.

3.6.5 Hire purchase and finance lease receivables

As at 31 December 2019, receivables of the subsidiaries under hire purchase and finance lease agreements amount to Baht 139,459 million (31 December 2018: Baht 141,531 million) and mostly comprise hire purchase agreements for cars and finance lease agreements for machines and equipment for business operation. The terms of the agreements are generally between 1 to 8 years and under most agreements interest is charged at a fixed rate as specified in agreements.

⁽²⁾ This allowance for doubtful accounts includes the allowance for doubtful accounts from assigning provision in excess of BOT's minimum requirement to specific provision for individual debtors.

3.6.6 Loans to customers of subsidiary companies for which the recognition of interest income has been ceased

(Unit: Million Baht)

TISCO Bank	Amounts calculated under BOT's guidelines ⁽²⁾ as at 31 December		Amounts calculated under TISCO Bank's policy as at 31 December	
	2019	2018	2019	2018
Loans to customers for which the recognition of interest income has been ceased ⁽¹⁾	6,816	8,040	7,588	8,618

⁽¹⁾ These amounts are calculated on an account by account basis.

⁽²⁾ Accrual of interest ceases when interest payments have been defaulted on for more than three months, counting from the due date.

(Unit: Million Baht)

Other subsidiaries	As at 31 December	
	2019	2018
Hire purchase receivables, finance lease receivables and other loan receivables for which the recognition of interest income has been ceased	605	615

3.6.7 Deferred revenue which is presented as a deduction against loans to customers of subsidiary companies

(Unit: Million Baht)

	Consolidated financial statements as at 31 December	
	2019	2018
Deferred revenue ⁽¹⁾	20,743	20,403

⁽¹⁾ These amounts include deferred revenue of hire purchase and finance lease contracts which are stated net of commissions and direct expenses incurred at the initiation of hire purchase.

3.6.8 Troubled debt restructuring of the subsidiary company operating a banking business

	For the years ended 31 December	
	2019	2018
Debtors restructured during the year		
Number of debtors restructured by modification of terms (number)	1,053	1,161
Loan balances before restructuring (Million Baht)	344	928
Loan balances after restructuring (Million Baht)	346	926
Loss on troubled debt restructuring (Million Baht)	-	-
Average contract period of debt restructuring (years)		
Hire purchase receivables	4	4
Mortgage loan receivables	5	4
Loan against auto license receivables	4	5
Commercial lending receivables	6	6

Supplemental information for the years ended 31 December 2019 and 2018 relating to the restructured debts is as follows:

(Unit: Million Baht)

	For the years ended 31 December	
	2019	2018
Interest income on restructured receivables	173	273
Receipt of principal and interest	1,138	1,541

As at 31 December 2019 and 2018, the subsidiary company operating a banking business has the outstanding balances with troubled debt restructuring debtors as follows:

(Unit: Million Baht)

	As at 31 December			
	2019		2018	
	Number of debtors	Outstanding balance	Number of debtors	Outstanding balance
The balance of the restructured debts	10,615	2,109	14,261	3,176

3.7 Allowance for doubtful accounts/allowance for loss on debt restructuring

3.7.1 Allowance for doubtful accounts - classified by receivables classification

(Unit: Thousand Baht)

Consolidated financial statements as at 31 December 2019

3.7.3 Allowance for loss on debt restructuring of the subsidiary company operating a banking business

(Unit: Thousand Baht)

	As at 31 December	
	2019	2018
	Balance - beginning of year	8,146
Increase during the year	-	-
Amortisation during the year	(803)	(802)
Balance - end of year	<u>7,343</u>	<u>8,146</u>

3.7.4 Non-performing loans to customers of the subsidiary company operating a banking business

(Unit: Million Baht)

	As at 31 December	
	2019	2018
	Non-performing loans to customers	5,292
Allowance for doubtful accounts ⁽¹⁾	1,721	2,386

⁽¹⁾ This allowance for doubtful accounts includes the allowance for doubtful accounts from assigning provision in excess of BOT's minimum requirement to specific provision for individual debtors.

3.8 Classification of assets

3.8.1 Investments in companies with weak financial position and poor operating results of the subsidiary company operating a banking business

(Unit: Million Baht)

	Cost		Fair value		Allowance for possible loss provided in the accounts	
	as at 31 December		as at 31 December		as at 31 December	
	2019	2018	2019	2018	2019	2018
Debt instruments - debentures ⁽¹⁾	1	1	-	-	1	1

⁽¹⁾ Investments in subordinated debentures issued by financial institutions which the Bank of Thailand ordered closed on 8 December 1997.

3.8.2 Classification of assets under the Bank of Thailand's guidelines of the subsidiary company operating a banking business.

As at 31 December 2019 and 2018, the quality of assets of the subsidiary company operating a banking business classified in accordance with the Bank of Thailand's guidelines is as follows:

(Unit: Million Baht)

	Loans to customers ⁽¹⁾		Investments in securities		Investments in receivables		Properties foreclosed		Total	
	as at 31 December		as at 31 December		as at 31 December		as at 31 December		as at 31 December	
	2019	2018	2019	2018	2019	2018	2019	2018	2019	2018
Pass	258,452	264,469	-	-	-	-	-	-	258,452	264,469
Special mention	16,222	16,533	-	-	-	-	-	-	16,222	16,533
Sub-standard	2,927	3,356	-	-	-	-	-	-	2,927	3,356
Doubtful	1,409	1,536	-	-	-	-	-	-	1,409	1,536
Doubtful of loss	955	1,417	42	36	12	13	-	12	1,009	1,478
Total	279,965	287,311	42	36	12	13	-	12	280,019	287,372

⁽¹⁾ Loans to customers include investments in debt securities under resale agreements of other commercial banks and loans to financial institutions (which are presented as part of interbank and money market items-net (assets) in the statement of financial position).

3.8.3 Classification of assets under the Bank of Thailand's guidelines for which the subsidiary company operating a banking business sets aside provision using a collective approach

3.8.3.1 Hire purchase receivables

(Unit: Million Baht)

	Debt balance		Net amount used for setting up allowance for doubtful accounts ⁽¹⁾		Percentage of allowance for doubtful accounts setup ⁽²⁾		Allowance for doubtful accounts ⁽³⁾	
	as at 31 December		as at 31 December		as at 31 December		as at 31 December	
	2019	2018	2019	2018	2019	2018	2019	2018
					(%)	(%)		
Pass	120,479	122,837	120,479	122,837	0.72	0.83	867	1,018

Transfer type of asset	(8,062)	-	124,223	-
Gain (loss) from fair value adjustment	(1,022)	6,992	-	(3,460)
Book value - end of year	<u>30,304</u>	<u>39,388</u>	<u>955,266</u>	<u>831,043</u>

The investment property of the Company and its subsidiaries is an office condominium for rent and is stated at its fair value at the end of 2019. The fair value of investment properties is calculated using the asset appraisal method based on the market approach, which makes reference to data on assets in the market that are similar and comparable to the appraised assets. These valuations were made by an internal professional appraiser of TISCO Bank that comply with valuation standards.

Key assumptions that are unobservable inputs used in the valuation are summarised below.

	Consolidated financial statements as at 31 December 2019	Result to fair value where as an increase in assumption value
	Estimated office condominium price rate (Baht/Sq.m.)	23,500 and 139,951
	Separate financial statements as at 31 December 2019	Result to fair value where as an increase in assumption value
	Estimated office condominium price rate (Baht/Sq.m.)	82,960 - 103,700

The Company and its subsidiaries arranged for an independent professional appraiser to appraise the value of the office condominium in 2018, using the market approach.

Had the office condominiums been carried in the financial statements based on cost model, their net book value as at 31 December 2019 and 2018 would have been as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements as at 31 December		financial statements as at 31 December	
	2019	2018	2019	2018
Office condominiums - net of accumulated depreciation	992,895	1,021,651	256,597	373,901

Key assumptions that are unobservable inputs used in the valuation are summarised below.

	Consolidated	Result to fair value
	financial statements as at 31 December 2019	where as an increase in assumption value
Estimated office condominium price rate (Baht/Sq.m.)	82,960 - 181,475	Increase in fair value
	Separate	Result to fair value
	financial statements as at 31 December 2019	where as an increase in assumption value
Estimated office condominium price rate (Baht/Sq.m.)	88,145 - 103,700	Increase in fair value

3.12 Intangible assets

The book value of intangible assets as at 31 December 2019 and 2018 is presented as follows:

	(Unit: Thousand Baht)	
	Consolidated	Separate
	financial statements Computer software	financial statements Computer software
As at 31 December 2019:		
Cost	1,600,388	572,577
Less: Accumulated amortisation	(1,270,928)	(448,368)
Net book value	329,460	124,209
As at 31 December 2018:		
Cost	1,554,441	544,565
Less: Accumulated amortisation	(1,106,219)	(385,034)
Net book value	448,222	159,531

A reconciliation of the net book value of intangible assets for the years ended 31 December 2019 and 2018 is presented as follows:

	(Unit: Thousand Baht)			
	Consolidated financial statements		Separate financial statements	
	For the years ended 31 December		For the years ended 31 December	
	2019	2018	2019	2018
Net book value at beginning of year	448,222	537,696	159,531	182,482
Acquisitions of computer software	46,891	79,132	27,518	47,267
Transfer in of computer software	520	-	520	-
Written-off/disposals of computer software	(1,119)	(1,606)	(22)	-
Amortisation	(165,054)	(167,000)	(63,338)	(70,218)
Net book value at end of year	<u>329,460</u>	<u>448,222</u>	<u>124,209</u>	<u>159,531</u>

As at 31 December 2019 and 2018, the Company and its subsidiaries have computer software which has been fully amortised but is still in use with the gross carrying amount, before deducting accumulated amortisation, of approximately Baht 846 million and Baht 717 million, respectively (The Company only: Baht 336 million and Baht 214 million, respectively).

3.16.3 Bills of exchange

Bills of exchange comprise bills of exchange that mature at call and bear interest at a fixed rate of 2.50 percent per annum.

3.17 Provision for long-term employee benefits

Provision for long-term employee benefits, which is compensations on employees' retirement and other long-term benefits, as at 31 December 2019 and 2018 is as follows:

(Unit: Thousand Baht)

Consolidated financial statements
as at 31 December

	2019	2018
Defined post-employment benefit obligation at beginning of year	659,719	575,796
Current service cost	72,855	46,464
Interest cost	24,672	17,326
Past service cost	213,412	-
Benefits paid during the year	(24,619)	(36,810)
Included in other comprehensive income:		
Actuarial (gains) losses arising from		
Demographic assumptions changes	169,837	(2,903)
Financial assumptions changes	161,618	33,387
Other assumptions changes	(42,880)	26,459
Defined post-employment benefit obligation at end of year	1,234,614	659,719
Other long-term benefits	251,254	167,723
Total provision for long-term employee benefits at end of year	1,485,868	827,442

(Unit: Thousand Baht)

Separate financial statements
as at 31 December

	2019	2018
Defined post-employment benefit obligation at beginning of year	155,960	134,134
Current service cost	12,189	8,410
Interest cost	4,844	3,675
Past service cost	49,486	-
Benefits paid during the year	(1,867)	(19,769)
Included in other comprehensive income:		
Actuarial (gains) losses arising from		
Demographic assumptions changes	29,652	(700)
Financial assumptions changes	35,796	27,710
Other assumptions changes	(44,821)	2,500
Defined post-employment benefit obligation at end of year	241,239	155,960
Other long-term benefits	24,658	21,026
Total provision for long-term employee benefits at end of year	265,897	176,986

Long-term employee benefit expenses included in the profit or loss for the years ended 31 December 2019 and 2018 are as follows:

(Unit: Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	For the years ended 31 December		For the years ended 31 December	
	2019	2018	2019	2018
Current service cost	93,966	65,148	14,148	10,335
Interest cost	28,688	21,051	5,293	4,134
Past service cost	213,412	-	49,486	-
Actuarial (gains) losses	70,833	(3,061)	3,251	(183)
Total employee benefit expenses	406,899	83,138	72,178	14,286

The cumulative amount of actuarial losses recognised in other comprehensive income and taken as part of retained earnings of the Company and its subsidiaries as at 31 December 2019 and 2018 amounted to Baht 510 million and Baht 279 million, respectively (The Company only: Baht 99 million and Baht 82 million, respectively).

As at 31 December 2019 and 2018, the Company and its subsidiaries expect to pay long-term employee benefits during the next year of Baht 120 million and Baht 40 million, respectively (The Company only: Baht 44 million and Baht 18 million, respectively).

As at 31 December 2019 and 2018, the weighted average duration of the liabilities for long-term employee benefits are 16 years and 19 years, respectively (The Company only: 12 years and 15 years, respectively).

Significant actuarial assumptions are summarised below:

(Unit: Percent per annum)

	Consolidated financial statements		Separate financial statements	
	As at 31 December		As at 31 December	
	2019	2018	2019	2018
Discount rate	1.25 - 2.25	1.72 - 4.02	1.25 - 2.19	1.72 - 4.02
Average salary increase rate	5.00	5.00	5.00	5.00

The results of sensitivity analysis for significant assumptions that affect the present value of the employee benefit obligation as at 31 December 2019 and 2018 are summarised below.

(Unit: Thousand Baht)

	Consolidated financial statements as at 31 December			
	2019		2018	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%

Total other liabilities	8,820,147	7,960,065	1,449,497	1,481,562

The above accrued expenses include accrued bonus expenses which are remunerations paid to employees and management based on annual performance. These accrued bonus expenses include costs of annual bonus that are determined with reference to the Company's share price, paid to employees whose performance impacts the Company's operation results, as an incentive to work effectively and to build loyalty to the Company. This vested bonus is set aside for payment five years later. It is paid in cash and determined based on the average daily price of the Company's shares over the period of five years from grant date to settlement date. As of 31 December 2019 and 2018, the Company and its subsidiaries have issued bonus under this scheme amounting to Baht 1,014 million and Baht 859 million, respectively (The Company only: Baht 497 million and Baht 419 million, respectively).

3.19 Capital funds

The primary objectives of TISCO Group's capital management are to maintain its ability to continue as a going concern and to maintain capital adequacy ratio, cash liquidity and others in accordance with the regulations of the Bank of Thailand or relevant regulatory agencies.

TISCO Group maintains capital adequacy ratio in compliance with Basel III principles by implementing capital to risk assets requirement based on Internal Ratings-Based Approach (IRB) for hire purchase receivables, loan against auto license receivables, corporate lending, car inventory financing loans, equity exposure and other assets.

Regarding Capital fund as at 31 December 2019 and 2018, Financial Business Group has allocated the additional reserve from classification as a part of regulatory capital fund. The reserve has been classified to Tier 1 capital and Tier 2 capital based on method under BOT's regulation.

Capital funds of the Financial Business Group (under Basel III principles) are as follows:

	(Unit: Thousand Baht)	
	As at 31 December	
	2019	2018
<u>Common Equity Tier I capital</u>

To comply with the Notification of the Bank of Thailand No. Sor Nor Sor. 5/2556 regarding “Public Disclosure of Capital Maintenance for Financial Business Group”, the Company will disclose capital maintenance information of the Financial Business Group as at 31 December 2019 on its website (www.tisco.co.th) within April 2020.

3.20 Surplus (deficit) on valuation in available-for-sale investments

(Unit: Thousand Baht)

	Consolidated financial statements	
	as at 31 December	
	2019	2018
Balance - beginning of year	(88,532)	144,500
Increase (decrease) from changes in value of investments during the year	74,272	(233,032)
	(14,260)	(88,532)
Less: The effect of deferred tax liabilities	(17,384)	(2,530)
Balance - end of year	(31,644)	(91,062)

(Unit: Thousand Baht)

	Separate financial statements	
	as at 31 December	
	2019	2018
Balance - beginning of year	(62,026)	20,572
Increase (decrease) from changes in value of investments during the year	114,260	(82,598)
	52,234	(62,026)
Less: The effect of deferred tax assets (liabilities)	(10,447)	12,405
Balance - end of year	41,787	(49,621)

3.21 Surplus on revaluation of assets

This represents surplus arising from revaluation of office condominiums. The surplus is amortised to retained earnings on a straight-line basis over the remaining life of the related assets.

(Unit: Thousand Baht)

Consolidated financial statements
as at 31 December

	2019	2018
Balance - beginning of year	1,455,449	1,099,106
Revaluation	-	387,623
Transfer to retained earnings	(4,439)	(31,280)
	1,451,010	1,455,449
Less: The effect of deferred tax liabilities	(290,298)	(291,089)
Balance - end of year	<u>1,160,712</u>	<u>1,164,360</u>

(Unit: Thousand Baht)

Separate financial statements
as at 31 December

	2019	2018
Balance - beginning of year	383,656	281,231
Revaluation	-	106,651
Transfer to retained earnings	(790)	(4,226)
	382,866	383,656
Less: The effect of deferred tax liabilities	(76,572)	(76,731)
Balance - end of year	<u>306,294</u>	<u>306,925</u>

The revaluation surplus can neither be offset against deficit nor used for dividend payment.

3.22 Interest income

Interest income in the statements of comprehensive income for the years ended 31 December 2019 and 2018 consisted of the following:

(Unit: Thousand Baht)

	Consolidated financial statements	
	For the years ended 31 December	
	2019	2018
Interbank and money market items	575,858	706,371

3.35 Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the Group Chief Executive of TISCO Group.

For management purposes, the Company and its subsidiaries operate four main businesses as follows:

1. Commercial banking business: Provides financial services under the Commercial Banking Business license. Banking services are provided through TISCO Bank Public Company Limited headquarter and its branches.
2. Securities business: Provides securities business services under the Securities Business license. These businesses are serviced through the headquarter and branches of the subsidiary across the country.
3. Asset management business: Provides asset management services.
4. Support business: Provides all governance and support functions of the Group.

The Company and its subsidiaries have aggregated operating segments that have similar economic characteristics and are similar in the other respects required by the Thai Financial Reporting Standard.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements. However, the Company's and its subsidiaries' income taxes are managed on a group basis. Therefore, these expenses are not allocated to operating segments.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The Company and its subsidiaries operate in Thailand only. As a result, all the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

During the years 2019 and 2018, the Company and its subsidiaries did not have income from any customer amounting to or over 10 percent of their income.

The following tables present revenue, profit and total assets information regarding the Company's and its subsidiaries' operating segments for the years ended 31 December 2019 and 2018, respectively.

	Commercial banking business	Securities business	Asset management business	Support business	Total segments	Adjustments and eliminations	(Unit: Million Baht) Consolidated financial statements

3.36 Provident fund

The Company, its nine subsidiaries and their employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. The Company, its subsidiaries and the employees contribute to the fund monthly at the rates of 5 to 15 percent of the employees' salaries, in accordance with the rules prescribed in the fund's articles. The provident funds of the Company and its eight subsidiaries are managed by TISCO Asset Management Company Limited, and the fund of another subsidiary is managed by Bangkok Bank Public Company Limited. The funds will be paid to the employees upon termination in accordance with the fund rules. During the years 2019 and 2018, the Company and its subsidiaries recognised the contributions as expenses totaling Baht 301 million and Baht 268 million, respectively (the Company only: Baht 45 million and Baht 48 million, respectively).

3.37 Commitments and contingent liabilities

3.37.1 Avals, guarantees and commitments

(Unit: Thousand Baht)

Consolidated financial statements
as at 31 December

	2019	2018
Other guarantees	482,094	753,963
Undrawn client overdraft facilities	76,439	351,660
Interest rate swap agreements (Note 3.38.4)	-	1,200,000
Foreign exchange contracts (Note 3.38.4)	917,044	717,751
Others	578,509	517,961
Total	<u>2,054,086</u>	<u>3,541,335</u>

3.37.2 Litigation

As at 31 December 2019 and 2018, the subsidiaries have been sued for compensation totaling approximately Baht 314 million and Baht 334 million, respectively. Final judgements have not yet been reached in respect of these cases. The management of the Company and its subsidiaries believes that no material losses to the consolidated financial statements will be incurred as a result of the mentioned lawsuits.

3.37.3 Other commitments

- a) The subsidiary companies have commitments in relation to computer service agreements, whereby they are to pay both fixed fees and service fees which vary according to the quantity and type of services, as stipulated in the agreements.
- b) The subsidiary companies have entered into several lease agreements in respect of the lease of office buildings and branch offices. The terms of the agreements are generally 1 - 15 years.

As at 31 December 2019 and 2018, the subsidiary companies have future minimum lease payments required under the non-cancellable operating lease contracts as follows:

	(Unit: Million Baht)	
	As at 31 December	
	2019	2018
Payable within:		
Not over 1 year	186	192
Over 1 to 5 years	228	281
Over 5 years	47	56

- c) The subsidiary that operates a banking business has provided warranties in accordance with the terms of an agreement, related to the sale of a personal loan portfolio. The warranties cover a period of 3 years after the transfer date.
- d) The subsidiary has provided warranties in accordance with the terms of an agreement, related to the sale of a credit card business. The warranties cover a period of 2 years after the transfer of the business.

3.38 Financial instruments

3.38.1 Credit risk

Credit risk is risk that a counterparty or borrower will be unable to meet their financial commitments under an agreement, causing them to be unable to make settlement of indebtedness to the Company and its subsidiaries on the due date or to intentionally fail to make payments to the Company and its subsidiaries in accordance with the agreement.

TISCO Group is exposed to credit risk primarily with respect to loans to customers and guarantees of loans and others.

TISCO Group has centralised its risk management function under the regulatory guidelines for consolidated supervision issued by the Bank of Thailand. The Company and its subsidiaries (“the Group”) manage credit risk by adopting appropriate credit control policies and procedures in the credit approval process, and by analysis of risk factors and the ability of customers to service debt. For hire purchase receivables, the Group has implemented a credit scoring system, in order to enhance efficiency in the credit approval process and better reflect the credit risk. The Group also adopted a credit review process that examines and reviews the quality of loans so as to prevent and provide a remedy for problem loans in the future. The Group therefore does not expect to incur material financial losses from loans and guarantees of loans. In addition, the Group is not exposed to concentrations of credit risk because it has a varied customer base and a large number of customers. The maximum exposure to credit risk is limited to the carrying amount of loans to customers as stated in the financial statements.

Quality of risk from provision of hire purchase receivables by the subsidiary company operating a banking business, which comprises the largest portion of credit granted by the Group, is as detailed below.

The risk of hire purchase credit that is not overdue of the subsidiary operating a banking business can be classified into three groups, based on quality of risk in respect of expected losses within one year. These are “Very high grade”, “High grade” and “Medium grade”, with “Very high grade” credit defined as credit from which expected losses over the next year are less than or equal to 0.2% of the balance; “High grade” as credit from which losses within one year are expected to be between 0.2% and 2.0% and “Medium grade” as credit from which losses within one year are expected to exceed 2.0% of the balance.

Credit risk of hire purchase receivables classified by quality of credit is as follows:

	(Unit: Million Baht)	
	As at 31 December	
	2019	2018
Neither past due nor impaired		
Very high grade	56,241	56,197
High grade	52,635	54,864
Medium grade	11,603	11,777
Subtotal	120,479	122,838
Hire purchase receivables - overdue for 31 to 90 days	11,569	11,319
Hire purchase receivables - overdue for more than 90 days	2,798	3,324
Total	<u>134,846</u>	<u>137,481</u>

3.38.2 Market risk

Market risk is defined as the degree of vulnerability to movements in securities market prices and interest rates, which may affect income or the capital funds of the Group. In order to effectively manage market risk, a suitable risk treatment framework is to be implemented. TISCO Group uses a combination of risk sensitivities, Value at Risk and stress testing to manage market risks and establish limits. The Value at Risk (VaR) concept has employed methodologies and internal techniques appropriate to the nature of risks involved. On-going Back-testing is also performed to validate the internal Value at Risk model, and stress testing is performed under various extreme scenarios as a supplement to VaR. The risk assessment and corresponding risk treatment takes into account the transaction intent as well as the market liquidity of the securities.

3.38.2.1 Market risk - Marketable portfolio

The following table shows the VaR calculation for marketable portfolio position as at the financial statements date. The VaR that the Group measures is an estimate, using a confidence level of 99%, of the potential loss that is not expected to be exceeded if the current marketable portfolio position were to be held unchanged for one year.

(Unit: Million Baht)

	Market risk as at 31 December	
	2019	2018
Marketable financial assets		
Equity securities	235	279
Debt securities	4	6
Foreign currencies	31	46

3.38.2.2 Market risk sensitivity - Interest bearing assets and liabilities

The market risk sensitivity of interest bearing assets and liabilities is measured by assessing the effect of changes in interest rates on the net interest income over the period of one year, based on the fixed interest bearing asset and liability positions held by the Group at the financial statements date. In making such assessment, changes in interest rates are applied prospectively and normal increases in assets and liabilities are not taken into account as presented below.

(Unit: Million Baht)

	Increase (decrease) in sensitivity of net interest income as at 31 December	
	2019	2018
Change in interest rate		
Increase by 1 percent	137.10	263.55
Decrease by 1 percent	(137.10)	(263.55)

However, to better reflect a realistic business environment, the sensitivity to interest rate risk is adjusted taking into account that business growth and interest rate shift are actually gradual. The net interest rate sensitivity incurred would be less than the effect on net interest income as illustrated in the analysis. This market risk sensitivity of interest bearing assets and liabilities does not include the status of marketable debt securities, which is presented in the market risk - marketable portfolio.

3.38.2.3 Interest rate risk

The Company and its subsidiaries have the following significant exposures to interest rate risk related to financial instruments.

3.38.3 Liquidity risk

Liquidity risk is uncertainty that the subsidiary operating a banking business is unable to meet repayment obligations when they fall due. This could arise from a failure in asset conversion or to raise adequate fund for timely fulfillment of obligations, which could result in damages to the subsidiary. Liquidity risk may result from both internal and external factors. Internal factors hinge on liquidity reserve and a structure of assets and liabilities. Meanwhile, external factors are mainly driven by market liquidity and confidence of depositors.

Liquidity risk management framework

The overall liquidity risk management is overseen by the Risk Management Committee. Treasury function will be responsible for ensuring that daily liquidity position complies with the risk management policy of the subsidiary operating a banking business and regulatory requirement. On the other hand, the Risk Management function will monitor and control liquidity risk based on the prescribed risk limits.

The key liquidity risk management policies involve the management of cash flow maturity profiles, deposit concentrations, liquidity reserve assets and emergency contingency plan. Liquidity risk strategies will take into account market liquidity and how unexpected changes would affect the subsidiary operating banking business's risks. A manageable level of maturity mismatches of cash flows from assets and liabilities will then be consistently maintained and regularly monitored, together with the level of liquidity reserve assets. The procurement and concentration of funding sources will be well-planned to optimise risk and return. Contingency procedures for liquidity management in the times of unexpected financial crisis must be established and made ready for timely activation. In addition to the liquidity risk measurement, the subsidiary sets the limit of loan to total borrowing ratio and liquidity reserve asset level. The position of liquidity risk is monitored daily and reported to the Risk Management Committee and other relevant functions.

The subsidiary operating a banking business has set stress testing scenarios for liquidity risk where the scenarios cover the subsidiary's specific scenarios and industry-based scenarios, which cause unusual cash outflow from the subsidiary operating banking business.

The main sources of fund came from deposits. In the past, there was high rollover rate for matured deposits. Besides, the subsidiary operating a banking business also issued subordinated and unsubordinated debentures as another source of fund. On the uses of fund, the majority of fund is used in lending business while a proportion of fund is maintained as liquidity reserve assets as cushion against liquidity risk. Moreover, the subsidiary provides credit line to other companies under TISCO Group to support liquidity position if required.

3.38.3.1 Remaining contractual maturity of liabilities

(Unit: Million Baht)

	As at 31 December 2019			
	Remaining contractual maturity			
	Less than 3 months	3 - 12 months	More than 1 year	Total
	Liabilities	149,657	94,620	9,708

(Unit: Million Baht)

	As at 31 December 2018			
	Remaining contractual maturity			
	Less than 3 months	3 - 12 months	More than 1 year	Total
	Liabilities	152,492	83,020	24,863

The matured liabilities are generally rolled-over with 90 percent average rollover rate. By taking into account high rollover rate, the cash outflow at maturity will be lower than those presented by contractual maturity. On the other hand, the liabilities with remaining maturity of less than three months comprise current deposits and saving deposits. Both current deposits and saving deposits are considered to be more stable than term deposits in terms of cash outflow.

3.38.3.2 Volume and composition of highly liquid assets and internal ratio

(Unit: Million Baht)

	As at 31 December	
	2019	2018
Composition of highly liquid assets		
Cash	1,099	1,189
Interbank and money market - net	44,050	53,089
Current investments - net	7,466	6,784
Total highly liquid assets ⁽¹⁾	52,615	61,062
Liquid asset requirement ⁽¹⁾	38,862	43,063

⁽¹⁾ Highly liquid assets and liquid asset requirement are based on internal measurement.

The subsidiary operating a banking business has a policy in maintaining the highly liquid assets higher than the internal liquid asset requirement. As at 31 December 2019 and 2018, the subsidiary operating a banking business has highly liquid assets, which are daily calculated, at Baht 52,615 million and Baht 61,062 million, respectively, higher than the internal liquid asset requirement, which is daily considered, of Baht 38,862 million and Baht 43,063 million, respectively. In addition, the subsidiary operating a banking business has operating cash inflow from business, and available credit line from other financial institutions which is available to support uncertain liquidity requirement.

3.38.3.3 Counting from the financial statement date, as at 31 December 2019 and 2018, the periods to the maturity dates of financial instruments are as follows:

(Unit: Million Baht)

Consolidated financial statements as at 31 December 2019								
Transactions	At call	0 - 3 months	3 - 12 months	1 - 5 years	Over 5 years	Unspecified	Non-	Total
							performing loans

5. Significant events during the year of subsidiary companies

5.1 Increase/decrease in registered share capital of subsidiary companies

- A resolution passed by the 2019 Annual General Meeting of the Shareholders of Hi-Way Co., Ltd. (a subsidiary company) held on 19 April 2019 approved an increase of Baht 500 million in its registered share capital, from Baht 100 million to Baht 600 million, by issuing 5,000,000 new ordinary shares, causing the number of ordinary shares to increase from 1,000,000 shares to 6,000,000 shares of Baht 100 each. The shares are to be fully paid up. On 30 May 2019, the subsidiary company registered the increase in its registered share capital with the Ministry of Commerce.
- A resolution passed by the 2019 Annual General Meeting of the Shareholders of All-Ways Co., Ltd. (a subsidiary company) held on 19 April 2019 approved a decrease of Baht 500 million in its registered share capital, from Baht 700 million to Baht 200 million, by canceling 5,000,000 ordinary shares. As a result, the number of ordinary shares decreased from 7,000,000 shares to 2,000,000 shares of Baht 100 each. On 27 May 2019, the subsidiary company registered the decrease in its registered share capital with the Ministry of Commerce.

5.2 Termination of Joint Venture Agreement, purchase of investment, change of subsidiary company's name and decrease in registered share capital of subsidiary company

- On 4 September 2019, the Company and TISCO Securities Co., Ltd. (TISCO Securities), which is a subsidiary of TISCO Group, signed an agreement to terminate the joint venture agreement of "Deutsche TISCO Investment Advisory Co., Ltd.", a joint venture between TISCO Securities and Deutsche Bank group that operated under an investment advisory license in Thailand. The agreement was effective from 9 September 2019. Subsequent to the termination, TISCO Securities will continue to provide securities brokerage services and equity research services as usual.
- On 9 September 2019, TISCO Securities Co., Ltd. (a subsidiary company) purchased a 49% stake in Deutsche TISCO Investment Advisory Co., Ltd. from Deutsche Bank group, and has already paid the Baht 88 million purchase price of this investment. Therefore, the subsidiary company holds 99% of equity of Deutsche TISCO Investment Advisory Co., Ltd.
- A resolution passed by the Extraordinary General Meeting of the Shareholders of Deutsche TISCO Investment Advisory Co., Ltd. No. 2/2019, on 20 September 2019, approved the change in that company's name and approved the amendment of item No.1 in the memorandum of association, to state that the company's name is "TISCO Investment Advisory Securities Co., Ltd.". On 23 September 2019, the company registered the amendment of its memorandum of association with the Ministry of Commerce.
- A resolution passed by the Extraordinary General Meeting No. 3/2019 of the Shareholders of TISCO Investment Advisory Securities Co., Ltd. (a subsidiary company), on 17 October 2019, approved a decrease of Baht 75 million in its registered share capital, from Baht 100 million to Baht 25 million, by canceling 7,500,000 ordinary shares. As a result, the number of ordinary shares decreased from 10,000,000 shares to 2,500,000 shares of Baht 10 each. On 6 December 2019, the subsidiary company registered the decrease in its registered share capital with the Ministry of Commerce.

6. Approval of financial statements

These financial statements were approved by the Company's Audit Committee on 11 February 2020.
