

TISCO Financial Group Public Company Limited
and its subsidiary companies
Report and interim financial information
30 June 2020

Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of TISCO Financial Group Public Company Limited

I have reviewed the accompanying consolidated statements of financial position of TISCO Financial Group Public Company Limited and its subsidiaries as at 30 June 2020, the related consolidated statements of comprehensive income for the three-month and six-month periods then ended, and the related consolidated statements of changes in equity and cash flows for the six-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of TISCO Financial Group Public Company Limited for the same periods (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting and the Bank of Thailand's regulations. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 Interim Financial Reporting and the Bank of Thailand's regulations.

Emphasis of Matter

I draw attention to Note 1.4 and Note 1.5 to the interim consolidated financial statements regarding the COVID-19 pandemic which is impacting various businesses and industries. This situation could create uncertainties and may be impacting the operating results and cash flows in the future; and due to the impact of the COVID-19 situation, the Group has elected to adopt the Accounting Guidance on Temporary Relief Measures for Entities Providing Assistance to Debtors Impacted by Situations that Affect the Thai Economy as issued by the Federation of Accounting Professions in preparing the interim financial information. My conclusion is not modified in respect of this matter.

Somjai Khunapasut

TISCO Financial Group Public Company Limited and its subsidiaries

Notes to interim financial statements

For the three-month and six-month periods ended 30 June 2020

1. Basis for preparation and presentation of financial statements and significant accounting policies

1.1 Basis for preparation of interim financial information

This interim financial information is prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting and with reference to the regulation as stipulated by the Bank of Thailand (“BOT”), with the Company choosing to present condensed interim financial information. However, the Company has presented the statements of financial position, comprehensive income, changes in equity and cash flows in the same format as that used for the annual financial statements, and their presentation has been made in compliance with the BOT’s Notification No. Sor Nor Sor. 21/2561 regarding “Preparation and Announcement of Financial Statements of Commercial Banks and Parent Companies of Financial Holding Groups”, dated 31 October 2018, which has become effective for the financial statements for the year 2020.

The interim financial information is intended to provide information additional to that included in the latest annual financial statements. Accordingly, it focuses on new activities, events and circumstances so as not to duplicate information previously reported. This interim financial information should therefore be read in conjunction with the latest annual financial statements.

The interim financial information in Thai language is the official statutory financial statements of the Company. The interim financial information in English language has been translated from the Thai language interim financial information.

1.2 Basis of interim consolidation

The basis of interim consolidation is the same as that for the consolidated financial statements for the year ended 31 December 2019. During the period, there was no change in the composition of the subsidiaries.

1.3 The separate financial statements

The Company prepares the separate financial statements which present investments in subsidiaries and joint venture under the cost method.

1.4 Coronavirus disease 2019 pandemic

The Coronavirus disease 2019 pandemic is impacting various businesses and industries both directly and indirectly. This situation could create uncertainties and may be impacting the operating results and cash flows in the future. However, the impact cannot be reasonably estimated at this stage. The Group's management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in various matters in order to continuously assess the impact as the situation evolves.

1.5 New financial reporting standards that became effective in the current period

During the period, the Group has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal year beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards, except the new standards involving changes to key principles, which are summarised below:

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard:

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

Financial Reporting Standard Interpretations:

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

The impact of the adoption of these standards on the Group's financial statements is as follows:

Classification and measurement of financial assets

Financial assets - Debt instruments

The Group classifies its financial assets - debt instruments as financial assets that are subsequently to be measured at either amortised cost or fair value in accordance with the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets, based on the facts and circumstances as of the date these financial reporting standards were initially adopted. Classifications are as follows:

- Financial assets measured at amortised cost, when both of the following conditions are met: the financial asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and the contractual terms of the financial assets represent contractual cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial assets measured at fair value through other comprehensive income, when both of the following conditions are met: the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and the contractual terms of the financial assets represent contractual cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial assets measured at fair value through profit or loss, when the financial asset is held within a business model whose objective is not to hold assets in order to collect contractual cash flows, or the contractual terms of the financial assets represent contractual cash flows that are not solely payments of principal and interest on the principal amount outstanding.

Despite the foregoing, this financial asset - debt instruments may be designated as measured at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch, with such designation being irrevocable.

Financial assets - Equity instruments

All investments in equity are measured at fair value in the statement of financial position.

The Group's management reviewed and assessed existing financial assets as at 1 January 2020, based on the facts and circumstances that existed at that date, and concluded that the following significant changes were required to classification and measurement of the Group's financial assets.

- Termination of the former classification of investments in debt securities as held-to-maturity and available-for-sale, and investments in equity securities as available-for-sale and general investment.
- Classification of the former investments in held-to-maturity debt securities as financial assets measured at amortised cost.
- Classification of the former investments in available-for-sale debt securities as financial assets measured at fair value through other comprehensive income.
- Classification of all investments in equity securities as financial assets measured at fair value through profit or loss, in accordance with the Group's investment policy. As a result of the reclassification, the surplus (deficit) on changes in value of available-for-sale investments previously presented as part of other comprehensive income is to be reclassified and presented in retained earnings.

Classification of financial liabilities

The adoption of these standards does not have an impact on the classification of financial liabilities. The Group continues to classify and measure its financial liabilities at amortised cost, except for derivatives liabilities which are measured at fair value through profit or loss.

Impairment of financial assets

This TFRS requires entities to estimate allowance for expected credit loss in place of the incurred loss recognised under the previous accounting policy. It requires that impairment loss be recognised using the Expected Credit Loss Model, with a management overlay, for all financial assets that are debt instruments and not measured at fair value through profit or loss, including for undrawn commitments and financial guarantees, and it is not necessary for a credit-impaired event to have occurred prior to the recognition. The Group adopts the General Approach to determine expected credit loss of financial assets e.g. loans to customers, loans to financial institutions and investments in debt instruments.

Practice during transitional period

The Group adopted these financial reporting standards which the cumulative effect is recognised as an adjustment to the retained earnings or other components of equity as at 1 January 2020, and the comparative information was not restated. Therefore, the presentation of the 2019 figures cannot be compared with the financial statements for the year 2020.

The cumulative effect of the change is described in Note 2 to the interim financial statements.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases, adopting the same principles as those of TAS 17.

The Group adopted these financial reporting standards whereby the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020 (if any), and at the initial adoption the comparative information was not restated.

The cumulative effect of the change is described in Note 2 to the interim financial statements.

Accounting Guidance on Temporary Relief Measures for Entities Providing Assistance to Debtors Impacted by Situations that Affect the Thai Economy

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Entities Providing Assistance to Debtors Impacted by Situations that Affect the Thai Economy. Its objectives are to provide temporary relief measures solely for entities providing assistance to debtors impacted by the situations that affect the Thai economy, such as COVID-19, economic conditions, trade wars and drought, and to provide an alternative for all entities providing assistance to debtors in accordance with measures to assist debtors specified in the circular of the BOT No. BOT.RPD.(23)C. 276/2563 “Guidelines on providing assistance to debtors impacted by situations that affect the Thai economy” and the circular of the BOT No. BOT.RPD.(01)C. 380/2563 “Measures to provide additional assistance to debtors during the COVID-19 situation” or any other measures announced by the BOT. Such entities include credit card business, business providing loans secured against vehicle registrations without collateral, personal loan business under the supervision of the BOT and certain entities not under the supervision of the BOT, such as leasing, hire-purchase, motorcycle hire-purchase and factoring business. Entities providing assistance to debtors in accordance with the BOT’s measures and electing to apply this Accounting Guidance have to apply all temporary relief measures in this guidance.

On 22 April 2020, the Accounting Guidance was announced in the Royal Gazette and it is effective for entities providing assistance to debtors impacted by the aforementioned situations during the period from 1 January 2020 to 31 December 2021. The guidance applies to large-sized debtors, small and medium-sized debtors, and retail debtors who have the ability to run a business or to repay debts in the future, considering the following guidelines.

- Debtors who were not yet non-performing (Stage 1 or Stage 2) on or after 1 January 2020
- Debtors who became non-performing (Stage 3) on or after 1 January 2019, unless the entity is able to prove that the debtors becoming non-performing before 1 January 2019 are non-performing loans affected by the economic conditions

The Group has entered into the scheme to provide assistance to affected debtors in accordance with the BOT's guideline. For the debtors who meet the conditions under the temporary relief measures, the Accounting Guidance can be applied as follows:

- (1) For the provision of assistance to loans that are not yet non-performing (Non-NPL), the Group classifies them as loans with no significant increase in credit risk (Performing or Stage 1), provided that analysis of its status and business shows that the debtor is able to comply with the debt restructuring agreement without compliance monitoring and the debt restructuring is considered a pre-emptive debt restructuring rather than a troubled debt restructuring. If it is a provision of assistance to debtors in accordance with the circular of the Bank of Thailand No. BOT.RPD.(01).C. 380/2563, classification of the debtor remains at the same stage as before.
- (2) For the provision of assistance to non-performing loans (NPL), the Group classifies them as performing loans if the debtor is able to make payment in accordance with the debt restructuring agreement for 3 months or 3 installments consecutively, whichever is the longer period.
- (3) Additional working capital loans provided to a debtor in order to increase liquidity and enable the debtor to continue its business operations during the debt restructuring are classified by account level if the debtor has cash flows to support repayment or if, considering other factors, the debtor has the ability to pay the debt.
- (4) The guidelines of the BOT relating to assessment of whether there has been a significant increase in credit risk are applied to assess whether a debtor is moving to Stage 2.
- (5) Expected credit losses are determined based on the outstanding balance of the drawn down portion only.

- (6) If the debt restructuring causes the existing effective interest rate to no longer reflect the estimated cash inflows from the loan, the Group applies a newly calculated effective interest rate to determine the present value of loans that have been restructured and recognises interest income on the basis of this new effective interest rate during the grace period, or in accordance with the BOT's new guidelines if there are changes.
- (7) In cases where a general approach is used in determining expected credit losses, consideration is given to placing less weight on forward-looking information that is the result of the temporary crisis than on information reflecting ability of debt payment from historical experience.

As at 30 June 2020, the Group had provided assistance to affected debtors with outstanding receivable balances totalling Baht 54,889 million. Debtors who meet the conditions under the BOT's relief measures accounted for Baht 23,722 million of this amount, with the Group retaining the classification of debtors totalling Baht 6,732 million at the same stage as prior to the measures. For the debtors receiving other forms of assistance with recurring principal and/or interest payments scheduled, the Group continues to apply normal principles of loan classification and allowance for expected credit loss in accordance with financial reporting.

In addition, as at 19 June 2020 the BOT issued the circular of the BOT No. BOT.RPD.(01)C. 648/2563 "Measures to provide additional assistance to small-sized debtors during the COVID-19 situation". As at 30 June 2020, no debtors have yet to be in accordance with this circular.

Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

As at 30 June 2020, the Group has elected to apply the following temporary relief measures on accounting alternatives:

- To measure the fair value as at 30 June 2020 of investments in unquoted equity instruments using the fair value as at 1 January 2020.
- Not to account for any reduction in lease payments by lessors resulting from the COVID-19 situation as a lease modification, with the lease liabilities that come due in each period reduced in proportion to the reduction and depreciation of right-of-use assets and interest on lease liabilities recognised in each period reversed in proportion to the reduction, with any differences then recognised in profit or loss.

1.6 Significant accounting policies

The interim financial information is prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2019 except for the changes in the accounting policies which became effective on 1 January 2020 due to the adoption of new financial reporting standards, as follows:

1.6.1 Revenue recognition

a) Interest and discounts on loans

Since 1 January 2020, the Group has recognised interest on loans on an accrual basis, using the effective interest rate method, applied to the outstanding principal amount, without ceasing revenue recognition. The effective interest rate is the discount rate that estimates future cash flows over the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset. The effective interest rate is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the effective interest rate. If loans to customers are later credit-impaired, the Group recognises interest income using the effective interest rate method applied to the net carrying value of the loan (the loan amount net of allowance for expected credit loss). Subsequently, if the financial asset is no longer credit-impaired, the Group reverts to calculating interest income on a gross carrying amount.

Prior to 1 January 2020, interest on loans was recognised as income on an accrual basis and was based on principal outstanding. The Group had policies to cease accruing income for corporate loans on which interest payments had been defaulted for more than one month. For other loan accounts which were overdue for more than three months, the recognition of interest income was ceased, already recorded accrued interest was reversed from accounts and after that interest would be recognised as income on a cash basis. The accounts would be reinstated to an accrual basis when the overdue amounts were received.

- b) Gains (losses) on financial instruments measured at fair value through profit or loss

Gains (losses) on financial instruments measured at fair value through profit or loss consist of gains (losses) on trading and foreign exchange transactions, gains (losses) on changes in fair value of derivatives and financial assets measured at fair value through profit or loss, and gains (losses) on sales of financial assets measured at fair value through profit or loss and derivatives, for which the Group recognises as income or expenses on the transaction dates.

1.6.2 Investments in securities

Since 1 January 2020, the Group has classified investments in securities as financial assets - debt instruments and equity instruments as follows:

Financial assets - debt instruments

The Group classifies its financial assets - debt instruments as subsequently measured at amortised cost or fair value in accordance with the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets, as follows:

- a) Financial assets measured at fair value through profit or loss

Investments in debt instruments held within a business model whose objective is not to hold financial assets in order to collect contractual cash flows, or the contractual terms of the financial assets represent contractual cash flows that are not solely payments of principal and interest on the principal amount outstanding. These financial assets are initially recognised at fair value.

After initial recognition, unrealised gains and losses from changes in fair value are recognised in profit or loss.

- b) Financial assets measured at fair value through other comprehensive income

Investments in debt instruments whose the following conditions are met: the financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual terms of the financial assets represent contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are initially recognised at fair value.

After initial recognition, gain or loss from changes in fair value are presented as a separate item in other comprehensive income, with gains or losses from changes in the accumulated fair value of investments in debt instruments recognised as net gains (losses) on investments in profit or loss upon the disposal of investments. The expected credit losses and interest income which is calculated using the effective interest rate method are recognised in profit or loss.

At the end of reporting period, investments in debt instruments measured at fair value through other comprehensive income are presented in the statement of financial position net of allowance for expected credit losses (if any).

c) Financial assets measured at amortised cost

Investments in debt instruments whose the following conditions are met: the financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and the contractual terms of the financial assets represent contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. The Group recognises these as financial assets measured at amortised cost. These financial assets are initially recognised at fair value as at transaction date.

At the end of reporting period, investments in debt instruments measured at amortised cost are presented in the statement of financial position net of allowance for expected credit loss (if any).

Financial assets - equity instruments

All investments in equity instruments are measured at fair value in the statement of financial position. The Group classifies investments in equity instruments as financial assets measured at fair value through profit or loss.

After initial recognition, gain or loss from subsequent changes in fair value of investments in equity instruments are recognised in profit or loss. Dividends on these investments are recognised in profit or loss.

Fair value

The fair value of marketable securities is calculated based on the latest bid price of the last working day of the period as quoted on the Stock Exchange of Thailand. The fair value of non-marketable securities is based on discounted future cash flows techniques and/or determined by comparing with information of similar companies. The fair value of government bonds, state enterprise securities and private debt securities is calculated using the formula determined by the BOT, which is based on the yield rates quoted by the Thai Bond Market Association or other financial institutions, as the case may be. The fair value of unit trusts is determined based on their net asset value.

Income from investments and disposals of investments

Gain (loss) on disposals of investments are recognised in profit or loss on the settlement date. The weighted average method is used for computation of the cost of investments.

Recognition

Purchases and sales of investments are recognised on the settlement date.

Changes in classification of investments in debt instruments

When there are changes in the Group's business model for management of financial assets, the Group has to reclassify investments in debt instruments and adjust the value of these investments to their fair value on the reclassification date. Differences between the book value and fair value of investments in debt instruments on the reclassification date are recorded in profit or loss or other comprehensive income, depending on the classification of the investments.

Prior to 1 January 2020 the Group classified its investments as follows:

- a) Investments in trading securities are stated at fair value. Changes in the fair value of these securities are recorded in profit or loss.
- b) Investments in available-for-sale securities are stated at fair value. Changes in the fair value are recorded in other comprehensive income, and will be recognised as part of profit or loss when the securities are sold.
- c) Investments in held-to-maturity debt securities are recorded at amortised cost less allowance for impairment loss (if any). The premium/discount on debt securities is amortised/accreted by the effective rate method with the amortised/accreted amount presented as an adjustment to the interest income.
- d) Investments in non-marketable equity securities, which are classified as general investments, are stated at cost net of allowance for impairment loss (if any).

1.6.3 Investments in receivables purchased or transferred in

Since 1 January 2020 the Group has reclassified investments in receivable purchased or transferred in as held-to-maturity financial assets which are initially recognised at acquisition cost. At the end of reporting period, these investments are presented in the statement of financial position at amortised cost net of allowance for expected credit loss (if any)

Prior to 1 January 2020, investments in receivable purchased or transferred in are classified as held-to-maturity securities, and are valued at acquisition cost net of allowance for impairment (if any).

1.6.4 Loans to customers

Loans to customers are stated at the principal balances, excluding accrued interest receivables. Unrecognised deferred revenue/discounts on loans to customers are presented as deductions from loans to customers.

Hire purchase and finance lease receivables are stated at outstanding balance, net of deferred revenue. Deferred revenue is stated net of commissions and direct expenses incurred at the initiation of hire purchase contracts and advances received from finance lease receivables.

1.6.5 Allowance for expected credit losses/Allowance for doubtful accounts

Allowance for expected credit losses

The Group applies general approach to calculate expected credit loss on its financial assets, such as deposits at financial institutions, investments in debt instruments measured at amortised cost, investments in debt instruments measured at fair value through other comprehensive income, loans to customers and accrued interest receivables and committed credit lines and financial guarantees.

The Group classifies financial assets into three groups (Three-stage approach) in order to measure the expected credit loss, with the classification of the financial assets determined on the basis of the change in credit quality since the initial transaction date, as follows:

Group 1: Financial assets with no significant increase in credit risk (Performing)

For financial assets with no significant increase in credit risk since the initial recognition date, the Group recognises allowance for expected credit loss at an amount equal to the 12-month expected credit loss. For financial assets with maturity of less than 12 months, the Group uses a probability of default that corresponds to remaining terms of the contract.

Group 2: Financial assets with significant increase in credit risk (Under-performing)

For financial assets with significant increase in credit risk since the initial recognition date but that are not credit-impaired, the Group recognises the expected credit losses at an amount equal to expected credit loss over the expected lifetime of the financial instrument.

Group 3: Financial assets that are credit-impaired (Non-performing)

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset occur. The Group recognises the expected credit loss at the amount equal to expected credit loss over the expected lifetime of the financial assets.

At the end of each reporting period, the Group assesses whether the credit risk of financial assets has increased significantly since the initial recognition date, by comparing the risk of expected default on the financial asset as at reporting date with the risk of default as at the initial recognition date. The Group may use internal quantitative or qualitative bases and forward-looking information as a basis for assessing a decrease in credit quality, such as debtors overdue for more than 30 days. Evaluations of whether credit risk has increased significantly since the initial recognition date may be conducted individually or collectively for groups of financial assets.

Loans to customers are considered to be credit-impaired when one or more events occurs affecting the estimated future contractual cash flows of the counterparties. Evidence that financial assets are credit-impaired includes being overdue for more than 90 days or indications that debtors are facing significant financial difficulties, breaches of contract, the legal status, renegotiation of terms of repayment or debt restructuring.

In subsequent periods, if the credit quality of financial assets improves and it is assessed that there is no longer significant increase in credit risk from the initial recognition date that was assessed in the previous period, the Group will changes from recognising expected credit loss over the expected lifetime to recognising the 12-months expected credit loss.

When the terms of repayment of a loan to customer are renegotiated or the term of the contractual cash flow are modified because the debtors are in financial difficulty, the loan is considered to be a financial asset with a significant increase in credit risk or credit-impaired, unless there is evidence that the risk of that contractual cash flows will not be recoverable has decreased significantly and there are no indicators of impairment.

Expected credit loss is the probability-weighted estimate of expected credit loss over the lifetime of a financial instrument, taking into account the present value of all cash flows that are expected not to be recoverable. This is determined with reference to historical loss experience data grouped by asset on the basis of shared credit risk characteristics, taking into account type of loan, type of collateral, months on books, and other relevant factors, adjusted for current observable data, as well as forward-looking information that is supportable and reasonable, provided it can be shown to be statistically related. It also involves the appropriate exercise of judgement to estimate the amount of expected credit losses, using current macroeconomic data and macroeconomic forecasts. The Group determines both current and future economic scenarios, and probability-weights each scenario (base scenario, upturn scenario, downturn scenario and stress scenario) for the purpose of calculating expected credit loss. Use of forward-looking data increases the degree of judgement required in evaluating how relevant current macroeconomic changes affect expected credit loss. However, the Group has established a process to review and monitor the methodologies, assumptions and forward-looking macroeconomics scenarios on a regular basis. In addition, expected credit loss also include a management overlay.

For financial assets that are credit-impaired upon initial acquisition (investments in receivables purchased or transferred in), the Group measures allowance for expected credit loss at an amount equal to the outstanding receivable balance because it does not expect to receive cash flows from these receivables.

The measurement of expected credit losses for loan commitments is the present value difference between the contractual cash flows that are due to the Group if the commitment is drawn down and the cash flows that the Group expects to receive. The measurement of expected credit loss for financial guarantees is based on the expected payments to reimburse the holder less any amounts that the Group expects to recover.

The increase (decrease) in an allowance for expected credit loss is recognised as an expense in profit or loss in the statement of comprehensive income. The Group has a policy to write off receivables when they are identified as bad debts.

In addition, the Group has adopted the accounting guidance in determining the staging of loans to customers for debtors meeting the criteria for relief measures in accordance with the BOT's circular.

Allowance for doubtful accounts

Prior to 1 January 2020, the Group provided allowance for doubtful accounts of loans to customers in accordance with the Notifications of the BOT and adjusted these by the additional amount which is expected not to be collectible based on an evaluation of the current status of the debtors, taking into consideration the recovery risk and the value of collateral.

For all loans to customers except for hire purchase receivables and loan against auto license receivables that are classified as pass and special mention, the Group records provision at a rate of not less than 1% and not less than 2% of the debt balance net of collateral value excluding accrued interest receivables, respectively. For non-performing loans to customers which are classified as sub-standard, doubtful and doubtful of loss, the Group records allowance for doubtful accounts at a rate 100% of the debt balance remaining after deducting the present value of expected future cash inflows from debt collection or from collateral disposal, with the discount interest rate and the period of collateral disposal being set with reference to the BOT's Notifications.

For hire purchase receivables and loan against auto license receivables that are classified as pass, special mention and non-performing loans, the Group uses a collective approach, based on historical loss and behavioral grading of the loan receivables.

Allowance for doubtful accounts for other receivables is provided for the estimated loss that may be incurred in the collection of receivables and based on the review of current status of receivables outstanding at the end of reporting period.

1.6.6 Financial assets with modifications of terms/Debt restructuring

Since 1 January 2020, when a financial asset's terms of repayment are renegotiated or modified, or debt is restructured, or an existing financial asset is replaced with a new financial asset because a debtor is having financial difficulties, the Group assesses whether to derecognise the financial asset and measures the expected credit loss, as follows:

- If the modification of terms does not result in derecognition of the financial asset, the Group calculates the gross book value of the new financial asset based on the present value of the new or modified cash flows, discounted using the original effective interest rate of the financial asset, and recognises a gain or loss on modification of terms in profit or loss.
- If the modification of terms results in derecognition of the financial asset, the fair value of the new financial asset is the latest cash flows of the original financial asset as at the date of derecognition. The difference between the book value and the fair value of the financial asset is recognised in profit or loss.

If the debt restructuring does not meet the criteria for derecognition as of the restructuring date, the debtor continues to be classified as financial asset with a significant increase in credit risk (Stage 2) or as a financial asset that is credit-impaired (Stage 3) unless the debtor has been able to make payment in accordance with the debt restructuring agreement for not less than 12 months counting from the restructuring date. At that point, it can be reclassified as a financial asset with no significant increase in credit risk (Stage 1). If the debt restructuring results in a derecognition, the new financial asset is considered a financial asset with no significant increase in credit risk (Performing or Stage 1).

Prior to 1 January 2020, the Group recorded troubled debt restructuring transactions in accordance with the BOT's regulations and Thai Accounting Standard regarding "Accounting for Troubled Debts Restructuring". In case where the debt restructuring involves modifications of terms of receivables, the fair value of receivables after restructuring represents the net present value of the expected future cash inflows, discounted using the cost of fund rates prevailing at the restructuring date. In case where the cost of fund rates are lower than the interest rates specified in the term of modifications, the Group will use the interest rates specified in the term of modifications as the discount rates. The Group records differences between the fair value of receivables and the balance of net book value of receivables as of restructuring date as expenses in profit or loss. Loss arising from restructuring by waiver of part of principal or recorded accrued interest receivable, less recorded allowance, is recognised in profit or loss when incurred.

1.6.7 Leases

At the inception of the contract, the Group assess whether a contract is a lease or consists of a lease component. The contract is classified as lease or consists of a lease component if that contract provides the right to control the use of the specified asset for a certain period in exchange for compensation.

The Group as a lessee

The Group recognises Right-of-use assets and liabilities for all lease contracts with a lease term of more than 12 months, unless the underlying assets are low in value.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised through initial measurement, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

Unless the Group is reasonably certain that it will obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of the lease payments to be made over the lease term, discounted by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or reassessment.

Short-term leases and leases of low-value assets

Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognised as expenses on a straight-line basis over the lease term.

The Group as a lessor

Leases in which the majority of risks and rewards of ownership are transferred to lessees are considered finance leases. Assets under finance lease agreements are recognised as accounts receivable equal to the net investment amount according to the lease agreement or the net present value of the amount received under the lease agreement and the remaining unsecured value.

Leases in which the majority of risks and rewards of ownership are not transferred to lessees are considered operating leases. Amounts paid under operating leases are recognised as income in profit or loss by using the straight-line method over the life of the lease.

1.7 Significant accounting judgements and estimates

The interim financial information is prepared using subjective judgements and estimates as same as those used for the financial statements for the year ended 31 December 2019, except for the changes in judgements and estimates related to the following matters that became effective on 1 January 2020.

1.7.1 Allowance for expected credit loss on loan to customers

The management is required to use judgement in estimating the allowance for expected credit loss on loan to customers. The estimation relies on a complex model, a dataset of assumptions, model development and assessments related to the increase in credit risk, as well as the selection of forward-looking information, which involves a large number of variables. Therefore, actual results could differ from these estimates.

1.7.2 Determination of lease term for leases with options to extend or cancel the lease - as a lessee

In determining lease terms, the management needs to use judgement to assess whether the Group is reasonably certain to exercise options to extend the terms of leases or to cancel the leases, taking into account all relevant facts and circumstances that create economic incentives for the Group to exercise or not to exercise such options.

2. Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 1.5 to the interim consolidated financial statements, during the current period, the Group has adopted financial reporting standards related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards is recognised as an adjustment to retained earnings as at 1 January 2020. Therefore, the comparative information was not restated.

The amounts of adjustments affecting the statements of financial position as at 1 January 2020 from changes in accounting policies due to the adoption of these standards are presented as follows:

(Unit: Million Baht)

	Consolidated financial statements			
	31 December 2019	The impacts of		1 January 2020
		Financial reporting standards related to financial instruments	TFRS 16	
Statement of financial position				
Assets				
Financial assets measured at				
fair value through profit or loss	-	1,921	-	1,921
Investments - net	9,363	(1,366)	-	7,997
Right-of-use assets	-	-	1,062	1,062
Deferred tax assets	1,325	(111)	-	1,214
Other assets	2,501	-	(78)	2,423
Liabilities				
Lease liabilities	-	-	984	984
Equity				
Other components of equity	1,811	36	-	1,847
Retained earnings - unappropriated	27,556	408	-	27,964

(Unaudited but reviewed)

(Unit: Million Baht)

	Separate financial statements			
	31 December 2019	The impacts of Financial reporting standards related to financial instruments	TFRS 16	1 January 2020
Statement of financial position				
Assets				
Financial assets measured at fair value through profit or loss	-	837	-	837
Investments - net	837	(837)	-	-
Right-of-use assets	-	-	1	1
Liabilities				
Lease liabilities	-	-	1	1
Equity				
Other components of equity	348	(42)	-	306
Retained earnings - unappropriated	8,087	42	-	8,129

2.1 Financial instruments

Details of the impact on equity as at 1 January 2020 due to the adoption of financial reporting standards related to financial instruments are presented as follows:

	(Unit: Million Baht)	
	Consolidated financial statements	Separate financial statements
Other components of equity		
Classification of investments in available-for-sale equity securities as financial assets measured at fair value through profit or loss	45	(53)
Less: Income tax effects	(9)	11
Impacts on other components of equity due to the adoption of financial reporting standards related to financial instruments	36	(42)

(Unaudited but reviewed)

	(Unit: Million Baht)	
	Consolidated	Separate
	<u>financial statements</u>	<u>financial statements</u>
Retained earnings - unappropriated		
Classification of investments in available-for-sale equity securities as financial assets measured at fair value through profit or loss	(45)	53
Fair value measurement of investments in equity instruments of non-listed companies	555	-
Less: Income tax effects	<u>(102)</u>	<u>(11)</u>
Impacts on retained earnings due to the adoption of financial reporting standards related to financial instruments	<u>408</u>	<u>42</u>

However, the adoption of these financial reporting standards requires the Group to recognise an allowance for expected credit loss, in place of the loss recognised under the previous accounting method, in accordance with the model for each group of assets. Based on the impact calculation, the subsidiary company operating a banking business has a remaining excess loan loss reserve of Baht 2,113 million, which will be released in quarterly amounts over 2 years under the straight-line method, in line with the BOT's guideline.

(Unaudited but reviewed)

The classifications and measurement of financial assets and financial liabilities in accordance with TFRS 9, compared with the classifications and measurement of the carrying amounts under the former basis, are as follows:

3. General information

3.1 The Company's information

TISCO Financial Group Public Company Limited ("the Company") is a holding company and is the parent company of TISCO Group. Its registered address is 48/49 TISCO Tower, 21st Floor, North Sathorn Road, Silom, Bangrak, Bangkok.

3.2 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company. They also include associated companies and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

The Company has significant business transactions with related parties. These transactions have been concluded on commercial terms and bases agreed upon in the ordinary course of business between the Company and those related parties, which are in reference to the terms and prices as charged to other customers.

4. Supplemental information

4.1 Consolidated financial statements

A list of subsidiaries included in the consolidated financial statements as at 30 June 2020 and 31 December 2019 is provided below.

4.8.3.1 Classified by loan classification of the subsidiary company operating a banking business

(Unit: Thousand Baht)

	As at 30 June 2020	
	Loans to customers and accrued interest receivables	Allowance for expected credit losses
Financial assets with no significant increase in credit risk (Performing)	187,915,151	3,388,073
Financial assets with significant increases in credit risk (Under-performing)	29,708,475	3,825,480
Financial assets that are credit-impaired (Non-performing)	7,047,772	1,965,239
Allowance established in excess	-	1,584,599
Total	224,671,398	10,763,391

(Unit: Thousand Baht)

	As at 31 December 2019		
	Loans to customers and accrued interest receivables	Net amount used for setting up allowance for doubtful accounts	Allowance for doubtful accounts ⁽¹⁾ ⁽²⁾
Provision under BOT's guidelines			
- Pass	217,488,690	175,206,431	2,438,575
- Special mention	16,491,289	15,191,241	2,352,268
- Sub-standard	2,927,707	2,389,220	1,037,284
- Doubtful	1,409,323	1,178,170	480,613
- Doubtful of loss	955,442	320,408	202,811
Allowance established in excess	-	-	3,562,564
Total	239,272,451	194,285,470	10,074,115

(1) Allowance for doubtful accounts for loans to customers is determined based on debt balance less collateral value in accordance with the BOT's guidelines (except for hire purchase and finance lease receivables, for which TISCO Bank does not deduct the collateral value from the outstanding loan balance).

(2) As at 31 December 2019, the provisions set aside by TISCO Bank exceeded the BOT's notification No. Sor Nor Sor. 5/2559 minimum requirement by a total of Baht 5,714 million. TISCO Bank allocated Baht 2,151 million of the excess provision to specific provision for individual debtors and so combined with the minimum provision requirement of Baht 4,360 million, the total provision set aside in accordance with the BOT's requirement is Baht 6,511 million.

(Unaudited but reviewed)

As at 31 December 2019			
Percentage of allowance for doubtful accounts set up (%)			
	Hire purchase receivables ⁽³⁾	Loan against	Other loans ⁽⁴⁾
		auto license receivables ⁽³⁾	
Pass	0.72	1.87	1

(5) This allowance for doubtful accounts includes the allowance for doubtful accounts from assigning provision in excess of the BOT's minimum requirement to specific provision for individual debtors.

4.8.5 Hire purchase and finance lease receivables

As at 30 June 2020, receivables of the subsidiaries under hire purchase and finance lease agreements amount to Baht 131,288 million (31 December 2019: Baht 139,459 million) and mostly comprise hire purchase agreements for cars and finance lease agreements for machines and equipment for business operation. The terms of the agreements are generally between 1 to 8 years and under most agreements interest is charged at a fixed rate as specified in agreements.

(Unit: Million Baht)

	Consolidated financial statements as at 30 June 2020				
	Amounts of installments due under the long-term lease agreements				
	Not over 1 year	Over 1 year but not over 5 years	Over 5 years	Financial assets that are credit-impaired (Non-performing)	Total

Advances received from finance lease receivables	(9)	-	-	-	(9)
Present value of minimum lease pay from agreements (excluding accrued interest)	42,120	86,915	7,087	3,337	139,459
Allowance for doubtful accounts ⁽⁵⁾					(3,167)
Net hire purchase and finance lease receivables					136,292

(5) This allowance for doubtful accounts includes the allowance for doubtful accounts from assigning provision in excess of the BOT's minimum requirement to specific provision for individual debtors.

(6) Net of deferred commissions and direct expenses incurred at the initiation of hire purchase.

4.8.6 Loans to customers of the subsidiary companies for which the recognition of interest income has been ceased

As at 31 December 2019, loans to customers of the subsidiary companies for which the recognition of interest income has been ceased under the BOT's guidelines and the Group's policy are as follows:

(Unit: Million Baht)

	As at 31 December 2019	
	Amounts calculated under BOT's guidelines ⁽⁸⁾	Amounts calculated under the Group's policy
TISCO Bank ⁽⁷⁾	6,816	7,588
Other subsidiaries		605

(7) These amounts are calculated on an account by account basis.

(8) Accrual of interest ceases when interest payments have been defaulted on for more than three months, counting from the due date.

However, in order to align with the financial reporting standards which became effective on 1 January 2020, the subsidiary companies revised their accounting policy by cancelling the policy to cease the recognition of interest income. Therefore, as at 30 June 2020 the subsidiary companies do not have loans to customers for which the recognition of interest income has been ceased.

4.8.7 Troubled debt restructuring of the subsidiary company operating a banking business

As at 30 June 2020 and 31 December 2019, the subsidiary company operating a banking business has outstanding balances with troubled debt restructuring debtors as follows:

	As at			
	30 June 2020		31 December 2019	
	Number of debtors	Outstanding balance (Million Baht)	Number of debtors	Outstanding balance (Million Baht)
Balance of restructured debts	11,503	3,155	10,615	2,109

4.9 Allowance for expected credit losses/allowance for doubtful accounts/allowance for loss on debt restructuring

4.9.1 Allowance for expected credit losses

As at 30 June 2020, the Group has allowance for expected credit losses which is classified by type of financial assets as follows:

(Unit: Thousand Baht)

	Consolidated financial statements					
	For the six-month period ended 30 June 2020					
	Financial assets with no significant increase in credit risk (12-mth ECL)	Financial assets with significant increases in credit risk (Lifetime ECL - not credit impaired)	Financial assets that are credit-impaired (Lifetime ECL - credit impaired)	Allowance for doubtful accounts/ allowance for impairment	Allowance established in excess	Total

Balance - end of period	3,571,204	4,114,956	2,333,143	-	1,584,599	11,603,902

(1) Beginning balance of allowance for doubtful accounts, measured in accordance with the rules of the BOT, is presented as 12-mth ECL and Lifetime ECL on TFRS9, without restatement of the comparative information.

The amount of allowance for expected credit losses (ECL) as at 1 January 2020 as determined in accordance with TFRS 9: Financial Instruments was lower than the amount of allowance for doubtful accounts as at 31 December 2019 as determined in accordance with the former accounting policy by Baht 2,113 million. Such amount will be released in quarterly amounts over 2 years under the straight-line method, in line with the BOT's guideline. As a result, as at 30 June 2020 the balance of allowance established in excess remained at Baht 1,585 million.

(Unit: Thousand Baht)

Separate financial statements					
For the six-month period ended 30 June 2020

Total other liabilities	8,125,054	8,820,147	1,550,762	1,449,497

The above accrued expenses include accrued bonus expenses which are remunerations paid to employees and management based on annual performance. These accrued bonus expenses include costs of annual bonus that are determined with reference to the Company's share price, paid to employees whose performance impacts the Group's operating results, as an incentive to work effectively and to build loyalty to the Group. This vested bonus is set aside for payment five years later. It is paid in cash and determined based on the average daily price of the Company's shares over the period of five years from grant date to settlement date. As of 30 June 2020, the Group have issued bonus under this scheme amounting to Baht 511 million (The Company only: Baht 251 million)

4.19 Capital funds

The primary objectives of the Group's capital management are to maintain its ability to continue as a going concern and to maintain capital adequacy ratio, cash liquidity and others in accordance with the regulations of the BOT or relevant regulatory agencies.

The Group maintains capital adequacy ratio in compliance with Basel III principles by implementing capital to risk assets requirement based on Internal Ratings-Based Approach (IRB) for hire purchase receivables, loan against auto license receivables, corporate lending, car inventory financing loans, equity exposure and other assets.

Regarding Capital funds as at 30 June 2020 and 31 December 2019, the Financial Business Group has allocated the additional reserve from classification as part of regulatory capital funds. The reserve has been classified to Tier 1 capital and Tier 2 capital based on method under the BOT's regulation.

(Unaudited but reviewed)

Capital funds of the Financial Business Group (under Basel III principles) are as follows:

(Unit: Thousand Baht)

	As at	
	30 June 2020	31 December 2019

Undrawn client overdraft facilities	18,404	46,439
Foreign exchange contracts	1,190,269	917,044
Others	364,735	578,509
Total	<u>2,040,642</u>	<u>2,024,086</u>

4.36.2 Litigation

As at 30 June 2020 and 31 December 2019, the subsidiaries have been sued for compensation totaling approximately Baht 334 million and Baht 314 million, respectively. Final judgements have not yet been reached in respect of these cases. The management of the Group believes that no material losses to the consolidated financial statements will be incurred as a result of the mentioned lawsuits.

4.36.3 Other commitments

- a) The subsidiary companies have commitments in relation to computer service agreements, whereby they are to pay both fixed fees and service fees which vary according to the quantity and type of services, as stipulated in the agreements.
- b) The subsidiary companies have entered into several lease agreements in respect of the lease of office buildings and branch offices. The terms of the agreements are generally 1 - 15 years.

(Unaudited but reviewed)

As at 30 June 2020 and 31 December 2019, the subsidiary companies have future minimum lease payments required under the non-cancellable operating lease contracts as follows:

(Unit: Million Baht)

	As at	
	30 June 2020	31 December 2019
Payable within		
Not over 1 year	-	186
Over 1 to 5 years	-	228
Over 5 years	-	47

- c) The subsidiary that operates a banking business has provided warranties in accordance with the terms of an agreement, related to the sale of a personal loan portfolio. The warranties cover a period of 3 years after the transfer date, to be expired in 2021.
- d) The subsidiary has provided warranties in accordance with the terms of an agreement, related to the sale of a credit card business. The warranties cover a period of 2 years after the transfer of the business, to be expired in 2020.

4.37 Fair value of financial instruments

As of 30 June 2020 and 31 December 2019, the Group has financial assets and liabilities that are measured at fair value using different levels of inputs as follows:

	Level 1	Level 2	Level 3		
Financial assets measured at fair value					
Available-for-sale investments					
Unit trusts	837	837	-	-	837

Valuation techniques and inputs to Level 2 and Level 3 valuations

- a) The fair value of investments in debt instruments has been determined by using the yield curve as announced by the Thai Bond Market Association.
- b) The fair value of investments in non-marketable unit trusts has been determined by using the net asset value per unit as announced by the fund manager.
- c) The fair value of derivatives has been determined by using a discounted future cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as spot rates of foreign currencies, yield curves of the respective currencies and interest rate yield curves.
- d) Investments in non-marketable equity instruments has been determined by using a discounted future cash flow and/or comparing with similar companies.

During the current period, there were no transfers within the fair value hierarchy.

5. Dividend payment

	Approved by	Dividend per share		Amounts of dividend paid (Million Baht)	Dividend payment period
		Preference share	Ordinary share		
		(Baht per share)	(Baht per share)		
Annual dividends for 2018	The 2019 Annual General Meeting of the Shareholders on 22 April 2019	7.00	7.00	5,604	May 2019
Total dividend payment in year 2019				<u>5,604</u>	
Interim dividends for 2019	The Meeting of the Board of Directors on 10 April 2020	7.75	7.75	6,205	May 2020
