Total liabilities	235,981	7,316
Total shareholders' equity	39,462	23,116
Net profit (Company portion only)	6,063	5,059
Earnings per share (Baht)	7.75	6.32

Board of Directors' Opinion: The Board of Directors recommends the shareholders to approve the Statement of Financial Position and Statement of Comprehensive Income for the year ended December 31, 2020 of the Company and its subsidiary companies.

Required votes for resolution: The resolution for this agenda item requires the majority votes of the shareholders who attend the meeting and cast their votes.

4. To approve the appropriation of profit arising from the year 2020 operations and dividend payment

Objective and Reason: In year 2020, the Company and its subsidiary companies recorded a net profit after minority interest of Baht 6,063,861,445 on consolidated basis, decreased by Baht 1,209,336,207 from year 2019. Excluding minority interests, the net profit attributable to the Company's shareholders for the year 2020 was Baht 6,063,482,814.

In compliance with the Public Limited Companies Act B.E. 2535 as well as rules and regulations of the Bank of Thailand, the dividend payment shall be made from net profit on cash-basis after full appropriation of required statutory reserve based on standalone financial statement. The net profit on standalone basis for the year 2020 was Baht 5,059,295,195. As the statutory reserve of the company already reached 10% of registered capital, it is therefore not required to appropriate the statutory reserve for year 2020, according to the law.

Consequently, the Company's full year profit and unappropriated retained earnings for the year ended 2020 based on standalone financial statements are shown as follows;

	<i>(Unit: Baht)</i>
Unappropriated Retained Earnings (December 31, 2019)	8,086,785,596
Dividend payment from profit arising from 2019 operations	(6,205,042,716)
Net Profit for year 2020	5,059,295,195
Adjust non-cash items	31,502,734
Unappropriated Retained Earnings at the year ended 2020	6,972,540,809

Total unappropriated retained earnings at the year ended 2020 is Baht 6,972,540,809 with full appropriation of required statutory reserve. The Company considered paying dividend at the appropriate rate based on operating performance and complied with related rules and regulations while maintaining sufficient Capital Adequacy Ratio (BIS Ratio) for business expansion.

The Board of Directors therefore recommends the shareholders consider and approve the dividend payment from the net profit arising from the year 2020 operations at Baht 6.30 per share for common shareholders and preferred shareholders. The proposed dividend payment amount will be approximately Baht 5,044,129,543 equivalent to the dividend payout ratio of 83.2% on consolidated basis, compared to dividend payout ratio of 85.4% for year 2019. In addition, an individual shareholder may apply for tax credit on dividend at the rate of 2/8 of the dividend amount received.

The capital level of TISCO Group at year ended 2020 was strong with the BIS ratio of 21.86% and Tier I ratio of 17.48%, compared to the regulatory requirement of 11% and 8.5%, respectively, which is considered sufficient to support growth and withstand any uncertainties and volatilities in the foreseeable future. Therefore, the remaining net profit on consolidated basis from year 2020 operations, after dividend payment, would not be appropriated as capital fund according to the consolidated supervision regulation.

Board of Directors' Opinion: The Board of Directors recommends the shareholders to approve the followings;

- No legal reserve appropriation because the Company's reserve has reached the amount required by laws;
- The appropriation of profit arising from the year 2020 operations as dividend payment for common shareholders and preferred shareholders at Baht 6.30 per share, by setting the record date on April 29, 2021 to determine the list of shareholders entitled to receive dividend, and the dividend payment shall be made on May 17, 2021;
- No appropriation of the profit from the year 2020 operations as capital fund on consolidated basis, according to the consolidated supervision regulation.

Required votes for resolution: The resolution of this agenda item requires the majority voting of the shareholders who attend the meeting and cast their votes.

5. To approve the appointment of the auditors and their remuneration for the year 2021

Objective and Reason: Pursuant to the Public Limited Companies Act B.E. 2535 and Section 40 of the Company's Articles of Association which state that the annual general meeting of shareholders shall appoint an auditor and determine the remuneration of the auditor of the Company every year. The Audit Committee, in accordance with the Company's External Auditor Selection Guidelines, had considered proposals for the appointment of the Company's auditors for the year 2021. It is recommended to the Board of Directors to propose the Annual General Meeting of Shareholders appointing Ms. Ratana Jala and/or Ms. Somjai Khunapasut and/or Ms. Wanwilai Phetsang of EY Office Limited as the Company's auditors for the year 2021, subject to the approval from the Bank of Thailand, considering that they are qualified under the regulations of the Bank of Thailand and the Office of the Securities and Exchange Commission, and have shown satisfactory performance. Total audit fees for the Company and subsidiaries in TISCO Group will not be exceeding Baht 10,630,000 including not exceeding Baht 750,000 for the Company and not be exceeding Baht 9,880,000 for 9 (nine) subsidiaries. Details are in Annex 5.

Board of Directors' opinion: The Board of Directors concurred with the proposal of the Audit Committee, and recommends the shareholders to approve the appointment of Ms. Ratana Jala, CPA License No. 3734 and/or Ms. Somjai Khunapasut, CPA License No. 4499, and/or Ms. Wanwilai Phetsang, CPA License No. 5315, of EY Office Limited as the Company's auditors for the year 2021 with remuneration of not exceeding Baht 750,000. The Chairman thanked the shareholders who attended the meeting. Further, the Chairman informed the meeting that due to the ongoing outbreak of COVID-19, the Company had established measures and guidelines related to hosting the meeting in order to prevent risk and spread of COVID-19, including social distancing which may cause inconvenience and delays. The Company thus apologized for any inconvenience caused and thanked shareholders for their understanding and cooperation. For the hygiene of shareholders, the Board of Directors will try to keep the meeting short, concise and with no microphone provided for the shareholders in the meeting room. Inquiries must be written down and handed to staff.

The Chairman stated that the Company assigned DIA Audit Company Limited to monitor and oversee the shareholders' meeting to ensure transparency and compliance with laws and the Company's Articles of Association. DIA Audit Company Limited assigned officers as observers to the registration and vote counting throughout the meeting.

Thereafter, the Chairman stated that the Notice of the Annual General Meeting of Shareholders for the year 2020 had been disseminated before the date of the meeting, in compliance with the Company's Articles of Association and other relevant laws. In addition, the Company publicly informed shareholders of the meeting's agenda on May 21, 2020 through the dissemination channels of the Stock Exchange of Thailand (SET) and the Company's website to allow adequate time to study meeting materials.

The Chairman also informed the meeting that the Company had provided a period from September 1 to November 30, 2019 for all shareholders to propose any matter they deem significant and appropriate to be included on the agenda items of the annual general meeting. However, there were no matters proposed to be included in the meeting agenda.

The Chairman asked Mr. Pairat Srivilairit, the Corporate Secretary, to notify the meeting about the Company's Articles of Association regarding voting.

The Corporate Secretary advised on Section 20 of the Company's Articles of Association regarding voting. Every shareholder present in person or being represented by proxy is entitled to one vote per share, with the exception of voting for the appointment of directors, for which the cumulative voting method is used.

According to the Financial Institutions Businesses Act B.E. 2551 ("FIBA"), Section 18, no person shall hold more than ten per cent of the total amount of a financial institution's or parent company of a financial institution's shares sold, including the number of shares held by related parties. Meanwhile, Section 21 indicated that the holding of shares in excess of the prescribed percentage shall not be set up against a financial institution or parent company of a financial institution concerned by such person, and such financial institution or parent company of a financial institution shall not pay dividend or any other form of money as benefit to such person or allow such person to vote at a meeting of shareholders on account of the portion of shares in excess.

For those who intended to vote at the meeting, the Company sent out voting forms for each agenda item prior to the meeting. In addition, the shareholders who had not cast their votes in advance and intended to vote "Against" or "Abstain" or split the votes (in the case of foreign shareholders with custodians in Thailand) on any of the agenda items could complete the voting form and submit it to the Company's staff to calculate the voting result for each agenda item. For cases in which shareholders have appointed a proxy and assigned their proxy to vote as directed, their "For" or "Against" or "Abstain" votes had been recorded in the computer system for calculation; these votes, including voided ballots, will be deducted from "For" votes from shareholders who have rights to vote when the calculation of each agenda item takes place.

The Corporate Secretary further informed the meeting that the shareholders who wish to leave the meeting before the meeting is adjourned, should return the remaining ballots to the Company's staff at the entrance of the meeting room.

To make the meeting proceed smoothly, if any shareholders have opinions or questions please write them down and hand them to our staff instead of using a microphone. The questions received from shareholders in advance will be answered in related agenda items, or agenda 8, other businesses, as the case may be.

The Chairman informed the meeting that there were 205 shareholders present in person and 1,429 represented through proxies, for a total of 1,634 shareholders, holding altogether 486,483,399 shares, representing 60.7606 per cent of the total paid-up shares, thereby constituting a quorum as specified under the Company's Articles of Association.

The Chairman hence declared the Annual General Meeting of Shareholders for the year 2020 duly convened.

During the meeting, there were an additional 38 shareholders who joined in person and 37 who joined represented through proxies. Thus, there were 243 shareholders attending in person and 1,466 represented through proxies, making up a total of 1,709 shareholders, holding altogether 486,975,819 shares, equivalent to 60.8221 per cent of the total paid-up shares.

The Chairman proposed that the meeting consider the following agenda items:

Agenda Item 2 To ratify the Board of Directors' business activities conducted in 2019 as described in the Annual Report

The Chairman requested the meeting to ratify the Board of Directors' business activities conducted in 2019 as described in the Annual Report.

The Chairman then informed the meeting that the Company would present a video of the Board of Directors' business activities conducted in 2019 and proposed the meeting to ratify the activities. Details were described in the "Report from the Board of Directors" on pages 1-2 of the Annual Report and in Annex item 3 on pages 20-21 of the Notice of the meeting, which had been disseminated to shareholders along with the Notice of this meeting.

The Board of Directors recommended the shareholders ratify the Board of Directors' business activities conducted in 2019 as described in the Annual Report.

The Chairman invited shareholders to express their opinions or ask questions.

Dr. Chalernpol Waitayangkool, a shareholder, inquired as follows:

1. The ability to handle customers who may not be able to pay debt as usual after the end of debt restructuring program in accordance with the financial relief measures.
2. How the Company evaluated and prepared the capital plan in the next few years amid the COVID-19 outbreak.

The Chairman thanked the shareholder and invited the Group Chief Executive to explain.

The Group Chief Executive explained that the epidemic of the COVID-19 affected financial institutions, mutual fund businesses as well as fund management businesses and it was impossible to predict when the situation will end. Nevertheless, the regulators and financial institutions have cooperated to ensure that the situation ends well. For the debt restructuring program for retail and SME customers affected by COVID-19 in the second phase, the Company has evaluated the circumstances since the first phase and shall support those customers for a period of time depending on the global economic situation, not only on the situation with Thai financial institutions. For non-performing loans (NPL), which may increase, the Company will closely monitor and assess their impacts.

In the past three months, the Company issued measures to help customers affected by the situation and found that approx. 90 percent of customers who applied the program were able to repay debt within the period. Also, there were positive signals that the number of customers applying for the program was declining. This indicated that most of the affected customers had already entered the debt restructuring program.

In normal circumstances, the Company conducted a quarterly stress-testing as specified by the Bank of Thailand (BOT). The Company also prepared a three-year rolling business plan which was reviewed quarterly. Under the worst case scenario, the Company's financial position and capital funds still were at an acceptable level despite the increase in NPL and loan loss reserve. This however was based on the assumptions from the beginning stage of debt restructuring which did not reflect actual NPL. Furthermore, the BOT had announced the debt relief measures for retail and SME customers affected by COVID-19 in order to retard the occurrence of NPL and help them overcome this situation.

The BOT and Thai financial institutions have been always managed with care. Thus, at the present, Thai financial institutions were quite strong and the capital ratio according to the international standards of the entire system was at 18 per cent, higher than the BOT's regulation. In the contrary, the capital ratios of financial institutions in the United States and Europe were at only 11 percent on average, even though they should have higher capital ratios than Thai financial institutions due to direct impact from the world economy. Although NPL and loan loss reserve would increase and adversely affect net profit, shareholders could be assured that the Thai financial institution system remained strong.

For the Thai economy, the Government was attempting to support domestic tourism, an important factor to help revitalize growth. The current account balance was still in surplus even as the Thai Baht was strong.

The Chairperson of the Nomination and Compensation Committee added that the current account surplus resulted from Thailand's export structure as when there were fewer exports; imported products were also reduced.

Since no shareholders objected or asked questions, the Chairman then proposed the meeting ratify the Board of Directors' business activities conducted in 2019 as described in the Annual Report.

The meeting **ratified** the Board of Directors' business activities conducted in 2019 as described in the Annual Report, with the majority votes of shareholders who attended the meeting and cast their votes as follows:

For	486,463,718	votes	equivalent to	99.9770	per cent
Against	112,100	votes	equivalent to	0.0230	per cent

Agenda Item 3 To adopt the Statement of Financial Position and Statement of Comprehensive Income for the year ended December 31, 2019 of the Company and its subsidiary companies

The Chairman proposed that the meeting adopt the Statement of Financial Position and Statement of Comprehensive Income for TISCO Financial Group Public Company Limited and its subsidiary companies for the year ended December 31, 2019 as shown in the 2019 Annual Report which have been considered by the Audit Committee and audited by the Certified Public Accountant. Details were published in the Annual Report, which had been disseminated to shareholders along with the Notice of this meeting. The Chairman invited Mr. Suthas Ruangmanamongkol, the Group Chief Executive, to summarize the details to the meeting.

The Group Chief Executive summarized the financial statements to the meeting and invited Mr. Chatri Chandrangam, the First Executive Vice President - Risk and Financial Control, to present the details and analysis of the financial statements.

The First Executive Vice President - Risk and Financial Control presented the meeting with details and analysis of the Statement of Financial Position and Statement of Comprehensive Income as follows:

(Unit : Thousand Baht)

Description	Consolidated	Company Only
Total Assets	298,304,095	32,315,764

The Board of Directors recommended shareholders adopt the Statement of Financial Position and Statement of Comprehensive Income for the year ended December 31, 2019 of TISCO Financial Group Public Company Limited and its subsidiary companies.

The Group Chief Executive invited shareholders to express their opinions or ask questions.

Mr. Basant Kumar Dugar, a proxy holder, inquired if the Company could increase the proportion of interbank loan.

The Group Chief Executive clarified that current repurchase rate (R/P Rate) was at 0.5 per cent resulting in low cost of interbank borrowing. In terms of fund stability, deposits were superior even though their cost is higher. Moreover, the Company has always been a net lender in the interbank lending market because the market is highly volatile.

Mr. Wasan Pongputthamon, a shareholder, inquired about the liquidity in the current banking system.

The Group Chief Executive replied that the liquidity in Thai banking system has increased throughout the past ten years. The Company continuously monitored excess liquidity which was currently over Baht 3 tn. Thus, the liquidity in the current Thai banking system was sufficient.

Ms. Ladda Thitikiatpong, a proxy holder from the Thai Investor Association, asked whether the Company expected or had plan to reduce the cost to income ratio, which was 4 per cent higher than the previous year.

The Group Chief Executive explained that cost to income ratio relied on many factors which the Board of Directors had determined through specific key performance indicators (KPI) to Management and employees.

The Chairman added that the Nomination and Compensation Committee had determined a clear framework and KPI each year. In the past, the Company tried to adjust administrative costs into variable costs so that all stakeholders could get good returns.

Since no shareholders objected or asked further questions, the Chairman then proposed the meeting adopt the Statement of Financial Position and Statement of Comprehensive Income for the year ended December 31, 2019 of TISCO Financial Group Public Company Limited and its subsidiary companies.

The meeting **adopted** the Statement of Financial Position and Statement of Comprehensive Income for the year ended December 31, 2019 of TISCO Financial Group Public Company Limited and its subsidiary companies, with the majority votes of shareholders who attended the meeting and cast their votes as follows:

For	486,843,825	votes	equivalent to	99.9770	per cent

Abstain	7,100	votes

Agenda Item 4 To approve the appropriation of profit arising from the year 2019 operational results with no dividend payment, and to acknowledge the interim dividend payment

The Chairman proposed the meeting consider approving the appropriation of profit arising from the year 2019 operations as statutory reserve, with no dividend payment and to acknowledge the interim dividend payment. He also invited Mr. Suthas Ruangmanamongkol, the Group Chief Executive, to present details to the meeting.

The Group Chief Executive reported that TISCO Group recorded a net profit before minority interest of Baht 7,273,197,652 on a consolidated basis, increased by Baht 229,456,622 from the year 2018. Excluding minority interest, the net profit attributable to the Company's shareholders for the year 2019 was Baht 7,270,233,420.

In compliance with Section 115 of the Public Limited Companies Act B.E. 2535, as well as the rules and regulations of the Bank of Thailand, the dividend payment shall be made from net profit on a cash-basis after full appropriation of required statutory reserve based on the standalone financial statements. In addition, under Section 116 of the Public Limited Companies Act B.E. 2535 and Section 39 of the Company's Articles of Association, the Company shall allocate not less than 5 per cent of the annual profits as reserved funds, less the accumulated losses brought forward (if any), until the reserve fund reaches an amount not less than 10 per cent of the registered capital. As the statutory reserve of the Company had already reached 10 per cent of registered capital, it is therefore not required to appropriate the statutory reserve for the year 2019, according to the law.

Consequently, the Company's full year profit, interim dividend payment, and remaining unappropriated retained earnings for year-end 2019 based on standalone financial statements were shown as follows.

	<i>(Unit : Baht)</i>
Beginning Unappropriated Retained Earnings 2019	7,482,642,602
Dividend payment from profit arising from 2018 operations	(5,604,428,774)
Net Profit for year 2019	6,224,284,071
Adjust non-cash items	(15,712,303)
Unappropriated Retained Earnings available for dividend payment for year 2019	8,086,785,596
Interim dividend payment from profit arising from 2019 operating results	(6,205,149,743)
Remaining Unappropriated Retained Earnings	1,881,635,853

To alleviate impact on the dividend entitlement of shareholders caused by the postponement of the Annual General Meeting of Shareholders amidst the outbreak of COVID-19, the Board of Directors approved an interim dividend payment from the net profit arising from year 2019 operating results at Baht 7.75 per share for common shareholders and preferred shareholders. The payment was made on May 8, 2020 in an amount of Baht 6,205,149,743, equivalent to the dividend payout ratio of 85.4% on consolidated basis, compared to the dividend payout ratio of 79.9% for year 2018.

The Board recommended shareholders approve the appropriation of profit arising from the year 2019 operating results, and no dividend payment, as follows.

- No legal reserve appropriation because the Company's reserve has reached the amount required by law.
- No additional dividend payment from the year 2019 operating results because the Board has approved an interim dividend payment which was made on May 8, 2020 at the amount of 7.75 baht per share or approximately Baht 6,205 Million in total, equivalent to the dividend payout ratio of 85.4% on a consolidated basis. The Board of Directors' approval for such interim dividend payment was aimed to alleviate impact on the dividend entitlement of shareholders caused by the postponement of the Annual General Meeting of Shareholders due to the outbreak of the COVID-19.

- The appropriation of remaining profit arising from the year 2019 operations after the interim dividend payment as unappropriated retained earnings and acknowledged the interim dividend payment from the year 2019 operating results.

The Chairman invited shareholders to express their opinions or ask questions.

Shareholder inquiries and opinions are summarized as follows:

1. Mr. Wasan Pongputthamon, a shareholder, questioned about the clarity, impact and rationale of the BOT's Policy to prohibit banks from paying interim dividend and repurchasing of shares, which, in his personal opinion, should be on each bank's discretion. He also asked if the aforementioned policy covered annual dividend payments.
2. Ms. Ladda Thitikiatpong, a proxy holder from the Thai Investors Association, inquired about the impact from the BOT's policy to the Company's operations and the possibility of future dividend payment.
3. Mr. Sittichoke Boonwanich, a shareholder, complimented the Company for consistently high dividend payment and inquired whether the Company anticipated to maintain annual dividend payment given the event with severe negative impact to the Company.
4. Mr. Weerasak Sahachaiseri, a shareholder, queried over the possibility and ratio of the dividend payment next year.
5. Mr. Korakoch Chetsada-arrakkul, a shareholder, asked if the Company could still pay an annual dividend in the following year.
6. Dr. Chalernpol Waitayangkool, a shareholder, questioned the policy of dividend payment next year and whether the Company had a plan to repurchase shares to maintain the capital ratio.

The Chairman invited the Group Chief Executive to clarify.

The Group Chief Executive summarized that the BOT had issued the policy to temporarily suspend the interim dividend payment and hold share repurchases; it was a preventive policy for financial institutions aimed at encouraging caution due to the rise in NPLs and unclear impact of the COVID-19 virus outbreak. Furthermore, the Bank of Thailand determined that financial institutions in Thailand must provide a Stress Test in order to evaluate their stability over the next few years before considering the dividend payment. Share buyback was included as it is the same kind of dividend payment and subject to the same policy from the Central Bank.

The banks in America and Europe have capital ratios at 11 – 12 per cent while Thai financial institutions have capital ratios at 18 per cent on average which showed the stability of Thai banking system. Therefore, the Company deemed that the Bank of Thailand was acting to encourage financial institutions to remain cautious and was believed to return to normal after the situation improves. However, it depends on the Bank of Thailand's policy in the future. Regarding the Company's outlook for the next six months, Thailand should be able to handle this issue and Thai financial institutions are stronger than other countries on average and thus should be less affected. In summary, Thai financial institutions, as well as of the Company, still have capability to make dividend payments subject to their performance and the Bank of Thailand's policy.

The Chairman added that the policy issued by the BOT is considered a preventive policy for financial institutions. Nonetheless, the shareholders are understandably interested in what will happen to the Company, such as the dividend payment rate that was previously reported by the Group Chief Executive. Due to the COVID-19 pandemic, the Government is requiring financial institutions to assist entrepreneurs, resulting in the Bank's profits decreasing as more funds are set aside for the increase in NPL. The Company agreed with the above policy, however, financial institutions have to consider their capabilities because they mainly earn interest as income. A debt moratorium for six months to one year would cause damage to the financial institution system.

Referring to the decrease in global Gross Domestic Product (GDP), it is expected that the Company's net profit and dividend payment will also drop. The Central Bank's policy to announce no interim dividend payment is aimed at encouraging all financial

institutions to be cautious as the COVID-19 situation is still in phase 1. Annual dividend payment is allowed if the financial institution has sufficient net profit, good financial statements and is able to control NPLs. The BOT is not seeking to directly impact shareholders. However, the aforementioned matters are only the Company's assumption.

For share repurchase, the Company agreed with the above Central Bank's policy to not allow banks to do share repurchase which will reduce the bank's capital fund. In the past, some financial institutions had capital levels that were too high or their stock price had fallen to a lower level than book value.

In this regard, the Company has a management plan to look after all stakeholders equally. Moreover, the Company has emphasized with management to place importance on high return and operating business carefully amid the changing situation.

Since no shareholders objected or asked further questions, the Chairman proposed the meeting approve the appropriation of profit arising from the year 2019 operations and no dividend payment, as recommended.

The meeting **approved** appropriation of profit arising from the year 2019 operations and no dividend payment as proposed, with the majority votes of shareholders who attended the meeting and cast their votes as follows:

For	486,964,795	votes	equivalent to	100.0000	per cent
Against	200	votes	equivalent to	0.0000	per cent

and **acknowledged** the interim dividend payment from the year 2019 operating results

The Chairperson of the Audit Committee informed the meeting that in order to comply with the Public Limited Companies Act B.E. 2535 and Section 40 of the Company's Articles of Association which state that the annual general meeting of shareholders shall appoint an auditor and determine the remuneration of the auditor of the Company every year, the Audit Committee, in accordance with the Company's External Auditor Selection Guideline, proposed the appointment of Ms. Ratana Jala and/or Ms. Somjai Khunapasut and/or Mrs. Yuppadee Satchawannakul and/or Ms. Wanwilai Phetsang of EY Office Limited as the Company's auditors. The aforementioned auditors received approval from the Bank of Thailand for the year 2020, considering that they are qualified under the regulations of the Bank of Thailand and the Office of the Securities and Exchange Commission, and have shown satisfactory performance. Total audit fees for the Company and subsidiaries in TISCO Group will not be exceeding Baht 10,530,000 comprising a maximum of Baht 750,000 for the Company and Baht 9,780,000 for nine subsidiaries.

The professional audit fee quoted for the year 2020 for all companies in TISCO group totals Baht 10,530,000, increased by 4.9% or Baht 490,000 from the previous year, mainly from an implementation of new accounting standards, related regulations and inflation. The audit fee of Hi-Way also accounts for higher business volume & activities with the rising number of branches and new businesses. Meanwhile, the audit fee of TISCO Investment Advisory Securities Company Limited was decreased as the mentioned company was planned to be dissolve in this year.

In addition, the Company had no non-financial audit fee for the year 2020 compared with the non-financial audit fee of Baht 520,000 in 2019 from a special audit according to the Bank of Thailand's guidance which shall be performed every 5 years.

The Board of Directors concurred with the proposal of the Audit Committee, and proposed shareholders consider the appointment of Ms. Ratana Jala, CPA License No. 3734 and/or Ms. Somjai Khunapasut, CPA License No. 4499 and/or Mrs. Yuppadee Satchawannakul, CPA License No. 4819 and/or Ms. Wanwilai Phetsang, CPA License No. 5315 from EY Office Limited to be the Company and subsidiaries' auditors for the year 2020. Any one of these auditors is authorized to certify the auditor's report. All nominated auditors have been approved by the Bank of Thailand. Total audit fees for the Company and subsidiaries in TISCO Group will not exceed Baht 10,530,000 comprising a maximum of Baht 750,000 for the Company and Baht 9,780,000 for the nine subsidiaries.

The Chairperson of the Audit Committee invited shareholders to express their opinions or ask questions. However, since no shareholders objected or asked further questions, the Chairperson of the Audit Committee proposed the meeting to approve the appointment of the auditors and their remuneration for the year 2020.

The meeting **approved** the appointment of the auditors and their remuneration for the year 2020 as proposed, with the majority votes of the shareholders who attended the meeting and cast their votes as follows:

For	486,738,137	votes	equivalent to	99.9550	per cent
Against	219,000	votes	equivalent to	0.0450	per cent

Agenda Item 6 To approve the number of directors and the appointment of directors
--

The Chairman proposed the meeting consider approving the number of directors and the appointment of directors.

The Chairman informed the meeting that since agenda items 6 and 7 were matters related to directors, all directors would voluntarily leave the meeting in line with good corporate governance practices. The Chairman then proposed the meeting elect a shareholder to conduct the meeting for agenda items 6 and 7.

The meeting elected Ms. Krisna Theravuthi, a shareholder, to conduct the meeting during discussion of agenda items 6 and 7. In this regard, Ms. Krisna Theravuthi asked the Corporate Secretary to explain details of agenda item 6.

The Corporate Secretary summarized the details to the meeting, namely that according to TISCO's Articles of Association, the whole Board of Directors shall be simultaneously elected at the annual general meeting of shareholders each year. Thus, the current Board of Directors was due to retire today. The Corporate Secretary also added that consideration of this agenda item would be made in two sections: (1) to approve the number of directors and (2) to approve the appointment of directors.

Section 22 of the Company's Articles of Association prescribed that the shareholders shall, from time to time, by resolution of a general meeting, determine the number of directors which shall be not less than five with not less than one half of the directors must domicile in Thailand. In addition, the number of directors who are persons of Thai nationality shall be in compliance with related laws, which shall be not less than 75 per cent of the total number of directors.

The Board of Directors, with recommendations from the Nomination and Compensation Committee, had considered the number of directors to be appropriate, according to good corporate governance practices. The candidate's qualifications and the skills each candidate might bring to the Board were also considered. Upon review of the board size and composition most suitable to the needs of the Company, the Board proposed shareholders approve the number of directors at 12 (twelve). Therefore, the Corporate Secretary proposed the meeting approve the number of board members and informed the meeting that shareholders, present in person or represented by proxy, were entitled to one (1) vote per share.

Ms. Krisna Theravuthi invited shareholders to express their opinions or ask questions. However, since no shareholders objected or asked further questions, Ms. Krisna Theravuthi proposed the meeting approve the number of directors at 12.

The meeting **approved** the number of directors at 12, with the majority votes of shareholders who attended the meeting and cast their votes as follows:

For	448,197,553	votes	equivalent to	92.0386	per cent
Against	38,769,390	votes	equivalent to	7.9614	per cent
Abstain	2,000	votes			
No voided ballot					

The Corporate Secretary further informed the meeting that TISCO's Articles of Association number 23 and 24 required cumulative voting for the election of directors. This mechanism would increase the opportunity for minority shareholders to nominate persons to become TISCO directors in accordance with Section 70 and 71 of the Public Limited Company Act.

In addition, TISCO had allowed the period of September 1 to November 30, 2019 for all shareholders to propose qualified candidates for a director's position in advance of the Annual General Meeting of Shareholders for 2020. After the mentioned period, there was no candidate nominated by shareholders for director position.

The Nomination and Compensation Committee shall select qualified candidates by considering their knowledge, experience, biography, sufficient understanding of finance and banking, economics, information technology, law or any other related fields based upon the need and maximum benefit of the Company, corporate governance practices, related laws and regulations, in order to attain the most appropriate size and composition of the board. Moreover, Independent director positions must be in compliance.

The Board of Directors then considered the Nomination and Compensation Committee's recommendation on the qualifications of candidates and proposed shareholders approve the election of the following qualified candidates as the Company's directors. The candidates' profiles were presented in the Notice, which had been sent to shareholders.

Agenda Item 7 To approve the remuneration of directors

Ms. Krisna Theravuthi proposed that the meeting approve the remuneration of directors and asked the Corporate Secretary to present the details of agenda item 7 to the meeting.

The Corporate Secretary clarified that the Nomination and Compensation Committee shall consider appropriate remuneration for directors every year to ensure that the remuneration is commensurate with their duties and responsibilities.

The directors in TISCO Group of companies who do not hold any management position in other subsidiary companies will be remunerated with meeting fees and monthly fees in the same form and amount as TISCO Board members, to be valid until amended. No meeting fee shall be paid to a member of the Board and Sub-committee who is also an employee or holds a full time position in the TISCO Group of companies.

The Board of Directors considered and agreed with the proposal of the Nomination and Compensation Committee and recommended shareholders approve the remuneration of the directors, subcommittee and advisors in the form of monthly fees, meeting fees, at the same rate as that of 2019 due to low inflation. 2. Group life and accident insurance or health insurance for Thai directors aged over 60,
3. Directors & Officers Liability Insurance (D&O)

The Board recommends shareholders approve the remuneration of directors, subcommittee members and advisors in the form of monthly fees and meeting fees at the same rate due to low inflation, including an executive car for the Chairman of the Board,

group life and accident insurance or health insurance in the case of Thai directors aged over 60, and Directors & Officers Liability Insurance, to be valid until amended. The Board of Directors, under the authority delegated by the shareholders, will determine an exact amount to be paid each time. The directors are entitled to receive other remuneration or benefits paid for other appointments or special assignments from the Board of Directors.

Ms. Krisna Theravuthi, the moderator of the meeting, then invited shareholders to express their opinions or ask questions.

Dr. Chalernpol Waitayangkool, a shareholder, inquired whether the consideration of remuneration of directors is in line with the economic downturn throughout the country, given that TISCO Group's operating results had decreased.

Ms. Krisna Theravuthi, the moderator of the meeting, informed the meeting that since the matter relates to the remuneration of directors, Prof. Dr. Pranee Tinakorn, the Chairperson of Nomination and Compensation Committee would join the meeting to clarify the details.

The Chairperson of Nomination and Compensation Committee explained to the meeting that the profit from operations will be allocated as a dividend to shareholders and bonus for employees. In addition, the Company has no policy to pay bonus to the directors. Hence, the remuneration of directors will be only monthly fees and meeting fees. The Nomination and Compensation Committee recommends shareholders approve the remuneration of directors at the same rate for this meeting despite the satisfactory performance in the past year because the duties and responsibilities of directors are still the same as before or even more due to the current situation. Nevertheless, if the operating results decreased significantly, the Nomination and Compensation Committee will review the remuneration of the directors to be in line with the situation.

Since no shareholders objected or asked further questions. Ms. Krisna Theravuthi then proposed the meeting to approve the remuneration of directors. In this regard, the directors who held shares were considered as having a conflict of interest in this matter and were not entitled to vote.

The meeting **approved** the remuneration of directors as proposed, with the votes of not less than two-thirds of the total number of votes of shareholders who attended the meeting as follows:

For	479,696,284	votes	equivalent to	98.5058	per cent
Against	1,341,675	votes	equivalent to	0.2755	per cent
Abstain	13,700	votes	equivalent to	0.0028	per cent
No voided ballot					

After the meeting considered the director-related agenda, all elected directors re-joined the meeting.

The Board of Directors re-joined the meeting and thanked all shareholders for their approval of their re-election for another term.

Agenda Item 8 Other business (if any)
--

The Chairman invited shareholders to express their opinions or ask questions regarding the business operations of the Company.

Mr. Pakdee Changwichukarn, a proxy holder, inquired about:

1. The groups in the credit port held by the Company and the amount and portion of each group.
2. What is the number of customers who applied for the debt relief program, their value and proportion to the whole portfolio, and would they be classified as NPL after the end of relief program.
3. The potential for more reserve to be set aside.

Dr. Chalernpol Waitayangkool, a shareholder, inquired about the credit account consolidation, the possibility of debt relief program extension and interest reduction.

Mr. Wasan Pongputthamon, a shareholder, asked about:

1. The Company's policy to alleviate impact on debtors during this crisis.
2. The reserve for loan loss if there is an extension of debt relief program from three to six months.

Mrs. Sirilak Kosolsombat questioned the readiness to handle a second wave of COVID-19 outbreak.

The Group Chief Executive thanked the shareholders and clarified that the conditions and duration of relief measures under the Bank of Thailand's measures are different for each financial institution. The Management of the Company has discussed and agreed that the Company would apply debt restructuring by suspending the principal payment for six months. The reason was that if the customers enter the debt moratorium (both principal and interest) and the situation prolongs, not only are the NPL difficult to assess, but the Company will have no information of the customers' ability to pay and payment record to consider other relief measures in the next phase. Therefore, the Company would like customers to make at least the interest payment so that his ability to pay could be gauged and used as a factor for the consideration of the next relief measure of the Bank of Thailand. When the customers fail to pay interest, the NPL will be immediately shown in the report. If the customers could make the interest payment following the debt restructuring plan, the Stage 2 customers (Under-performing) would turn to Stage 1 (Performing) within three months and the Stage 3 customers (Non-performing) would turn to Stage 1 within 12 months as per accounting standards. Thus, the setting aside of reserve will be different for each financial institution depending on the measures they chose to help customers.

At the beginning of the program, there were some misunderstanding about the measures by many participating customers. Many customers applied to the program to save their liquidity as cushion for uncertainty despite their long good payment record. But after conditions become clearer, a number of customers with good ability to pay asked to quit the program and return to repay the debt as normal, resulting in a significant decline in proportion of customers under debt relief program compared to the customers originally applied for the program. The remaining customers in the program are believed to be directly affected by the COVID-19 situation. Once the debt restructuring period ends, the Company's overall picture will become clearer. Nevertheless, the Company has prepared measures to relieve the burden of expenses for some customers who are unable to make normal payments.

The Chairman added that when the Company launched measures to help debtor in the initial period, some customers misconceived the program as debt forgiveness, while in fact it was only a suspension of principal repayment for three to six months which means the customer's burden remains and interest will be accrued and added to loan principal if it is not paid. There are large number of customers participating in debt restructuring to save their liquidity despite the fact that they still can repay the debt as normal. The inflow of applications for loan restructuring was far beyond the capacity of our operation to handle resulting in a surge of NPL.

The Group Chief Executive added that the understanding in the announced measures affected the number of requests for debt restructuring. After having clear understanding on the conditions of debt restructuring, the proportion of customers utilizing the measures decreased from 20 per cent to 10 per cent. For the motorcycle loan customers, the proportion reduced from 5 per cent to less than 2 per cent due to their better ability to pay off debt. For SME customers, less than 10 per cent of customers participated the debt restructuring measures. Due to misunderstanding about the measures, the number of customers requesting debt restructuring in the whole system should be more than what are actually needed, which will become clearer in the third quarter.

For the provision for loan loss in the future, the figures could not be predicted at the moment. However, the Credit Committee met weekly to closely monitor the situation. The Company should be able to predict the NPL figures after the debt restructuring ends by following up their ability to pay off debt under the measures for the next six months. Furthermore, the Company has prepared measures for the second wave of the COVID-19 pandemic and anticipated that 90 per cent of customers, especially those with good payment record in the first phase, would request an extension in the second phase where the Company will examine their ability to pay off debt and offer further assistance which will reduce the risk of the Company.

Dr. Chalernpol Waitayangkool, Shareholder, inquired about:

1. Change to the credit granting policy after the COVID-19 situation.
2. Marketing strategy of “Somwang Ngern Sang Dai” amid high unemployment.

The Group Chief Executive clarified that new loan demand will decrease, in line with the situation. Consumers might not make much investment and consumer loans will drop as well. Sales in the real estate and automotive industry including the production volume of factories will fall, which the Company sees as an advantage since it will reduce the occurrence of new debt burden. The Company saw massive market demand for “Somwang Ngern Sang Dai” which is providing credit facility against auto license for retail consumers who need credit line for business working capital and has been trying to penetrate this market for the past several months but had to delay the plan due to the current situation and may need to wait to assess the situation for another quarter. The Company believes that this market has a chance to grow in the next six to twelve months and will execute its strategy carefully.

Mr. Noppasit Pongsak, a shareholder, inquired about the issuance of Subordinate Instruments intended to qualify as Tier 2 Capital No. 1/2020, due in 2030.

The Group Chief Executive explained that the Company issued the subordinated debt Instruments to increase Tier 2 Capital and strengthen the Company's capital ratio. As the interest rates were low at the present, the Company decided to exercise option to redeem the subordinated debenture before maturity after five years and issued a new tranche with lower interest expense. This is an opportunity to reduce borrowing costs without changing policies or other objectives. The instruments offered were subordinated debentures issued in May 2020 (Tenor 10-year) with a 3.15 per cent interest rate and were given a credit rating by Credit Rating Agencies.

Mr. Thaprasert Phairotephamorn, Shareholder, inquired about the percentage of the Bank's customers that are SME and how much of these loans are NPLs.

The Group Chief Executive clarified that the SME customers account for around 4 to 5 per cent, which is a relatively small compared to the whole customer portfolio. The proportion of SME customers participating in the relief measures is less than ten per cent, over half of which chose to pay interest. However, if the situation is not resolved in the next six months, the company will consider extending the assistance based on their records and ability to pay as well as the business nature and potential. This is the policy that the company has implemented since the economic crisis in 1997.

Ms. Malee Kitvekin, a shareholder, queried the following matters:

1. Does TISCO Securities Company Limited offer Principal Protected Note and what is the characteristic and prospect of this product.
2. Is the Cryptocurrency a good choice of investment and will TISCO Securities Company Limited provide advisory service for such investment using Artificial Intelligence (AI).

The Group Chief Executive invited the Chief Executive Officer of TISCO Securities Company Limited (“TISCOSEC”) to clarify the shareholder's inquiry. The Chief Executive Officer of TISCOSEC informed that the TISCOSEC never offer both Principal Protected Note and Cryptocurrency products owing to their high risk.

Dr. Chalernpol Waitayangkool, a shareholder, noted that the clarification on NPL by the Group Chief Executive is clear and prudent, and asked if the NPLs will rise after the company spends six months to consider customers' credibility due to various definition of NPL from 3 months to 6 months, 9 months and 12 months depending on each financial institution. He also asked if the Company still determine NPL in accordance with the standard because it may cause impact on the credit records of customers with National credit Bureau and so on and what is the Company's plan and guide on this issue.

The Group Chief Executive explained that the submission of customers' NPL status to the National Credit Bureau (NCB) is in line with the BOT's regulation which differs from the more stringent policy of the Company. The measures of the BOT allow immediate adjustment from Stage 2 (Under-performing) to Stage 1 (Performing) and takes 3 months to adjust from Stage 3 (Non-performing) to Stage 1 (Performing), while the Company's internal policy need twelve months to adjust from NPL status to Stage 1 (Performing) resulting in less fluctuation in the NPL ration and loan loss reserve.

The Chairman added that this measure complied with the Company's conservative policy but had no impact on the credit of customers.

The Shareholders asked the method of accounting in case of principal payment suspension for three months but continued payment of interest.

The Group Chief Executive answered that the customers who make only their monthly interest payment following the condition of principal payment suspension shall not be counted as overdue. It would take time to improve if it has already been classified as NPL. In fact, the NPL occurs after the fourth overdue. The customers who accepted the condition and consistently made the debt payment will not be NPL. And after the relief period ends, the Company will invite the customer who has good records and conforms to the agreed conditions to discuss whether the customers want to resume the normal payment or apply for other relief measures so that both the customers and the Company can survive the crisis.

The Corporate Secretary reported that the Company will disseminate the minutes of the Annual General Meeting of Shareholders 2020 through the Company's website within 14 days after the meeting. Shareholders can check the accuracy of the minutes via the website. Shareholders who have questions that require clarification may submit to the Corporate Secretariat Office via the Company's email, tisco_cs@tisco.co.th, or +66 2633 6805. The Corporate Secretary also requested shareholders submit the remaining ballots to the Meeting staff in front of the meeting room.

There being no other issues, the Chairman thanked the shareholders for attending and giving useful recommendations. The meeting then adjourned at 16.30 hours.

For consideration of Agenda 2: To ratify the Board of Directors' business activities conducted in 2020 as described in the Annual Report

Report from the Board of Directors

In the year 2020, the unforeseen COVID-19 pandemic has affected people and economic activities around the world. The escalating number of infected cases and deaths have caused unprecedented global economic disruptions, including business lock down, travel restrictions, and quarantines, albeit the hope of vaccine rollout. Despite that the COVID-19 situation in Thailand was relatively well under control, the economy was severely affected from business lockdown and travel restrictions, as well as repercussions of slowdown in business and trades for both domestic and international activities. Lower income from contracted business activities also led to higher household debt level as consumers seek liquidity to sustain their businesses and ends meet.

Responding to the crisis, the government introduced a massive 1.9 trillion Baht stimulus program to support the economy, including subsidies for unemployments, stimulus to boost domestic travel, tourism and consumptions, soft loans for affected SME, and liquidity stabilization fund of corporate bond market. Meanwhile, the Bank of Thailand (BOT) lowered policy rate three times to 0.5% during the year. In addition, the BOT announced debt relief measures which encourage banks to provide debt relief and liquidity support to customers affected by the COVID-19 crisis, which may come in various forms including debt extension, debt moratorium, interest rates reduction etc. in order to provide needed assistance for consumers and businesses. The total amount of debts under BOT's measures reached 7.2 trillion Baht at the peak in the 3rd quarter of 2020.

Thai banking industry has thus encountered unprecedented challenges in 2020. With significant business downturn, profitability of the entire banking system has sharply fallen, mostly due to high provision charges to cover the spike in credit risk associated with the crisis, as well as dampened revenue from several core business areas. Nevertheless, thanks to the level of strong capital adequacy in the banking system, coupled with systematic debt relief programs being rollout, the industry has proven to be resilient in terms of financial soundness and stability. The NPL ratio of the banking industry only slightly increased from 2.98% of last year to 3.12%. However, there remained generally large portion of debt exposure under some kind of debt relief measures, thus the full impact to bank's asset quality might not have yet been fully reflected. However most banks have preemptively increased provision buffer against potential risks to ensure a sufficiently strong balance sheet, while the BOT limited the dividend payout of all banks for the year 2020 at 50% of net profit and not exceeding last year payout ratio, in order to further strengthen capital position against future uncertainties.

TISCO business was also affected by the crisis with Net Profit declined 16.6% from the previous year, mostly due to higher provision for loan loss set up and the decline in fee income resulted from lowered business activities. Loan portfolio contracted 7.4% from the previous year, in part due to cautious loan underwritings following heightened risk environment. TISCO has also provided the clients in all areas – corporate, SME, retails – with various forms of relief programs, tailored to best suits the needs of various customer's groups, with an aim to provide financial lifeline to cope during the crisis. At the peak, the total debt relief offered was 24% of total loan portfolio. Thanks to business recovery in the second half of the year, at least partially driven by domestic demand and government stimulus, most clients under relief program were able to emerged from the program with only about 4% remained under relief programs by the year-end.

Despite a rough year with high uncertainty, TISCO was able to control overall asset quality well, with NPL ratio stable at 2.5%, compared to 2.4% at the end of previous year. However, as the COVID-19 crisis was believed to linger for a long time with prolonged negative impact to the economy, TISCO adopt conservative loan loss provision policy according to TFRS9 by provide upfront provision coverage for any potential credit loss in the future. Therefore the loan loss reserve to NPL coverage ratio was set up as high as 210% at the year-end. Meanwhile, the group capital position remained very strong, with BIS and Tier I ratio of TISCO Bank as high as 22.8 % and 18.1% at the end of the year.

In the brighter spot, year 2020 was relatively a strong year for wealth management & capital market businesses. Our wealth business was able to provide value added investment calls for clients on a consistent basis. We were the first in the market to introduce megatrend thematic mutual funds, investing globally with the correct timing, which has shown highly successful investment results. The notable funds in 2020 included the fund investments in Biotechnology Healthcare, Global Digital Health, Cloud Computing, Next Generation Internet, China Technology, etc., which set a new standard and investment ideas for the whole asset management industry. Moreover, several mutual funds were ranked in top-tier fund performance with consistently generating favorable returns to our clients in both short and long investment horizons. With this, TISCO Asset Management was rewarded with “Outstanding Asset Management Company Award 2020” from SET Awards 2020 for another year, together with “Best Mutual Fund of the Year 2020” in the Equity general from the Money & Banking Awards 2020, as a recognition of the success the team continued to deliver to the investors. This year was also an active year for brokerage business, given trading volume was at all time high, despite the pandemic situation, while a new foreign business partnership has been formed with Jefferies, a leading brokerage house from the US, to promote foreign institution business flows going forward.

As a company that maintained sustainable and resilient business during these challenges, TISCO was awarded with “Best Company of the Year Award 2020” from Money & Banking Awards 2020. In addition, TISCO continued to support sustainable development goals and seek to create values to all stakeholders. TISCO has been one of the companies in Thailand Sustainability Investment (THSI) stock for 4 consecutive years, and received Certificate of “ESG100 Company” for 6 consecutive years. As an employer, Hi-Way Company, one of TISCO’s subsidiaries, received “Best Employer Thailand Awards 2019” from Kincentric Thailand, as a recognition of a company with outstanding employer-employee relationship. In addition, TISCO also received consolation award of “Thailand HR Innovation Award 2020” from Personnel Management Association of Thailand, PMAT, as the organization brought “Design Thinking” concept to develop employees’ solution thinking process. This reflected our value we are always giving to human resources as the most important asset of the company. Employee engagement and competency development programs were implemented to improve their skillsets and expertises, while effective social distancing measures were simultaneously implemented to ensure employee wellbeings during this time of pandemic.

TISCO continued to support corporate social responsibility mainly on enhancing financial literacy and improving social well-beings. The activities were designed to correspond with current economic and social situations, especially during the COVID-19 epidemic. New financial literacy programs were initiated to provide knowledge of financial products and household financial planning via online platforms to increase accessibility during this social distancing period. Moreover, TISCO constantly contributed to projects regarding promoting education opportunity and healthcare development for the community. For this year, “TISCO Ruam Jai 8” school building project was completed to support education in Samut Songkhram.

The COVID-19 pandemic looks to be far from over in 2021. Although the successful development of vaccines seems to provide some light at the end of the tunnel, it will however take time, possibly beyond a couple of years before life can return to normal and business can recover to the pre-crisis level. TISCO will thus need to move forward with care and prudence as uncertainties and risks will mostly likely lie ahead. Digital and technological disruptions have also been accelerated by the pandemic situation, thus business models will need to be highly adaptive to the fast changing world to ensure survival and sustainability. Also responsible lending practices will be emphasized to make sure the company is a good corporate citizen, contributing to the world of a better future.

The Board would like to express our appreciation to our shareholders, clients and business partners for their long-term supports, and extend special thanks to our management team and staff for their strong dedication and commitments during this difficult time. We believe that with the collaborations of all parties, TISCO can overcome this prolonged crisis and withstand any challenges in the years to come.

The Board of Directors

For consideration of Agenda 3: To approve the Statement of Financial Position and Statement of Comprehensive Income for the year ended December 31, 2020 of the Company and its subsidiary companies

Independent Auditor's Report

To the Shareholders of TISCO Financial Group Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of TISCO Financial Group Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2020, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of TISCO Financial Group Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TISCO Financial Group Public Company Limited and its subsidiaries and of TISCO Financial Group Public Company Limited as at 31 December 2020, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards and the Bank of Thailand's regulations.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matters

I draw attention to the following matters:

- a) As described in Note 2 to the financial statements, the Group has adopted the set of Thai Financial Reporting Standards related to financial instruments in the preparation of current year's financial statements and recognized the cumulative effect in accordance with these financial reporting standards and the Bank of Thailand's guideline.
- b) As described in Notes 1.2 and 1.5 to the financial statements regarding the COVID-19 pandemic which is impacting various businesses and industries. This situation could create uncertainties and may be impacting the operating results and cash flows in the future; and due to the impact of that situation, the Group has elected to adopt the Accounting Guidance on Temporary Relief Measures for Entities Providing Assistance to Debtors Impacted by Situations that Affect the Thai Economy as issued by the Federation of Accounting Professions in preparing the financial statements.

My opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in my professional judgments, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to

respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond to each matter are described below.

Allowance for expected credit loss on loans to customers

As discussed in Note 4.8 to the financial statements, as at 31 December 2020, the Group had total loans to customers of Baht 226,714 million (accounting for 82% of total assets) and allowance for expected credit loss of Baht 11,826 million, which are material to the financial statements. In 2020, the Group has adopted Thai Financial Reporting Standard No. 9 Financial Instruments, which became effective on 1 January 2020. This standard stipulates the basis to be used for calculation of impairment on financial assets using the expected credit loss method. The basis requires complex calculation modeling, which involves the use of significant management judgments and estimates in the model development, the identification of criteria for a significant increase in credit risk since initial recognition, the probability of default, the loss given default, the exposure at default, the calculation of expected credit loss, the selection of future economic variables to be incorporated into the model and the management overlay adjustment to the allowance for expected credit loss due to limitations of the model. Because of the materiality and the extent of judgments and estimates as mentioned above, I addressed the adequacy of the allowance for expected credit loss of loans to customers as a key audit matter.

I gained an understanding of, assessed and tested, on a sampling basis, the effectiveness of internal controls relevant to the loan origination and collection processes, the assessment of probability of default, loss given default and exposure at default, as well as the calculation of allowance for expected credit loss on loans to customers, and tested internal control systems over the relevant information technology systems. In addition, I evaluated and tested the reasonableness of the expected credit loss models, the rules and criteria applied by the Group in the assessment of significant increases in credit risk since initial recognition, including the data used in the model design, the effectiveness of models for significant loan types and the governance process over the model development, by examining model development documentation, testing, on a sampling basis, the accuracy and completeness of data used in model development, and assessing the methods and assumptions applied in the calculation.

I assessed the reasonableness of macroeconomic factors and probability of different scenario weights as well as the reasonableness of the management overlay adjustments. In addition, I examined the management's documented policy, which addressed the policies and approaches used to derive the estimation of expected credit loss, and its approval by adequacy of the disclosure management at an appropriate level. I compared accounting policies of the Group with financial reporting standards and rules of the Bank of Thailand, and evaluated the adequacy of the disclosure. Moreover, I examined the allowance for expected credit loss by testing, on a sampling basis, the classification of loans to customers based on the change in credit risks since initial recognition and recalculating the allowance for expected credit loss as at the end of the accounting period, including testing the completeness of data used in the calculation of allowance for expected credit loss.

Recognition of interest income on loans to customers

For the year 2020, the Group recognized interest income on loans to customers amounting to Baht 16,363 million (accounting for 87% of total income), which is considered main income of the Group. The Group recognizes interest income using the effective interest rate method, which involves use of management judgments and estimates in the estimation of future cash inflows throughout the expected life of financial instruments, taking into account any discounts or premiums on acquisition, fees and costs that are an integral part of the effective interest rate. In addition, interest income is generated from various types of loans provided to a large number of customers with a high volume of transactions, and each type of loan is subject to different

recognition conditions. I therefore focused my audit on whether interest income on loans to customers is recognized correctly, appropriately and in a timely manner, in accordance with Thai Financial Reporting Standards and the regulations announced by the Bank of Thailand.

I gained an understanding of, assessed and tested, on a sampling basis, the effectiveness of internal controls relating to the processes of loan origination, interest income recognition and loan collection, including relevant internal controls over information technology systems, by inquiring of management to gain an understanding, assessing the methods applied by the management in estimating future cash inflows and the expected life of financial instruments in the determination of effective interest rate, as well as testing, on a sampling basis, the accuracy of data and calculation. In addition, I applied a sampling method in selecting loan agreements to test whether the recording of loans as well as the income recognition complies with the conditions stipulated in the contracts and is adjusted in line with the effective interest rate according to the income recognition policy, and in accordance with Thai Financial Reporting Standards and the regulations announced by the Bank of Thailand. I also performed analytical procedures on interest income and tested, on a sampling basis, significant adjustments made through journal vouchers.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.
